

Agenda of the MNAA Management, Audit & Compliance Committee

Date/Time: Wednesday, November 13, 2024, at 10:00 a.m.

Place: Nashville International Airport – Tennessee Board Room

Management Committee Members: Nancy Sullivan, Committee Chair
Joycelyn Stevenson, Committee Vice Chair,
Jimmy Granbery

- I. CALL TO ORDER
- II. PUBLIC COMMENTS
No requests for public comment received to date. Deadline is November 11, 2024 at 9:00 p.m.
- III. APPROVAL OF MINUTES
October 9, 2024 Minutes of the MNAA Management, Audit & Compliance Committee Meeting
- IV. CHAIR'S REPORT
- V. ITEMS FOR APPROVAL
None
- VI. INFORMATION ITEMS
 - 1. FY24 Annual Comprehensive Financial Report ("ACFR")
 - 2. FY24 MNAA External Audit Update
 - 3. Executive Session - Litigation Update
- VII. ADJOURN

Minutes of the MNAA Management, Audit & Compliance Committee

Date: October 9, 2024

Location: Metropolitan Nashville Airport Authority
Tennessee Boardroom

Time: 10:13 a.m.

Committee Members Present:

Nancy Sullivan, Committee Chair; and Joycelyn Stevenson,
Committee Vice Chair

Committee Members Absent:

Jimmy Granbery

Other board Members Present:

Bobby Joslin, Andrew Byrd, Glenda Glover, and Glenn Farner

MNAA Staff & Guests Present:

Doug Kreulen, Cindy Barnett, Lisa Lankford, Trish Saxman,
Marge Basrai, Neale Bedrock, John Cooper, Eric Johnson, and
Rachel Moore

I. CALL TO ORDER

Chair Sullivan called the meeting of the MNAA Management Committee to order at 10:13 a.m. pursuant to Public Notice dated October 4, 2024.

II. PUBLIC COMMENTS

Chair Sullivan stated there were no public comment requests received.

III. APPROVAL OF MINUTES

Chair Sullivan asked for a motion to approve the August 14, 2024 Minutes of the Management, Audit & Compliance Committee meeting. Vice Chair Stevenson made a motion and Chair Sullivan seconded the motion.

Chair Sullivan asked Ms. Saxman for a roll call:

Chair Sullivan – Yes

Vice Chair Stevenson – Yes

The motion was passed with a vote of 2 to 0.

IV. BOARD CHAIR'S STATUS REPORT

Chair Sullivan had no Chair's report.

V. ITEMS FOR APPROVAL

1. FY25 CEO Key Performance Indicators (KPIs)

President Kreulen stated the FY25 CEO Key Performance Indicators (KPIs) were provided to the Management Committee and the Board last month. The items highlighted in yellow on the top two lines are the revenue and expenses approved in the FY25 Operating Budgets, and the Average Employee Satisfaction rate was added to this version last month and was one of the options previously discussed with Commissioners. In FY24, passenger satisfaction was weighted at 25%. For FY25, 10% weighting was applied to employee satisfaction and 15% for passenger satisfaction. As discussed with the Chair, the Board can always continue to evolve the evaluation processes as it goes forward. As discussed, the Board's recommendation is to move forward with this version, consistent with what was presented last month.

Vice Chair Stevenson stated her comment to the Chair was that there were no mechanisms for the Board to get feedback from staff on how they feel. She feels there should be some mechanism to get employee feedback, such as overall employee satisfaction. Vice Chair Stevenson stated she is fine with it as is, is but obviously it evolves and can get better, but at a minimum, we need to incorporate employee satisfaction. Chair Sullivan stated she believes it is a great suggestion.

Commissioner Byrd stated he read it, which took 1.5 hours, and looking at 50% financial and 50% operational, and it looks like we are focused on the budget and asked if these are stretch goals. Most budgets are fairly conservative. Looking at the fiscal responsibility and strength, he asked how hard these goals are to obtain. Are they layups or stretch goals? President Kreulen stated when the Board developed these goals several years ago, they had the same discussion on stretch goals. If you simply meet the budget, this is only worth 90%, so the Board felt like they were stretch goals. If you go 5% over your budget, then you are eligible for 100%, if you go 10% over your budget you get another bump. Our goal for BNA, JWN and MPC is the sum of those entities which is \$350M for revenue and \$198M for expenses. If those budgets are met, eligibility is 90%. If performance goes over on revenue or under on expenses, then you are eligible for more, so that is the stretch.

Commissioner Byrd asked for an explanation on the 110%. President Kreulen replied if you go 10% over that original budget, eligibility is 110%. The Board thought those were stretch goals at the time. President Kreulen said his concern is at some point we will not be hitting way over budget; we will be breaking even. There is some motivation there to hit your budget, but if we change these down the road to make them higher, he does not know how much higher we can continue to go. Commissioner Byrd stated he does

not think anyone on the Board understands what the revenue and expense generators are. He stated Ms. Basrai probably has a fairly good idea about whether these are realistic or not, because you run the finances of the airport which puts you a lot closer to the heart of it than the Board. Chair Sullivan stated but there are also factors outside anyone's control that could happen at any time. Commissioner Byrd agreed stating like the pandemic.

President Kreulen stated from the CEO perspective, as an example, last year's budget was \$302M and just to get to 90% you have to generate \$40M more and to get 100% you would have to generate \$50M plus. Commissioner Byrd stated it is a balancing act. President Kreulen replied on the fiscal responsibility, these numbers came up when we went to the bond market for BNA Vision. Commissioner Byrd asked what year. President Kreulen replied 2019 was the first bond. At the Board Retreat we will be at \$3.4B and going for more. What the Board wanted the minimum required by law and that is \$1.25B. Commissioner Byrd stated so it is a hurdle race. President Kreulen stated the Board wrote a policy and said we want the CEO and CFO to strive to hit \$1.25B and \$1.5B and have between 500 and 650 days cash on hand. And if you just meet the policy you are 100%. Commissioner Byrd asked why \$1.25B, is there a rational for it. President Kreulen replied the rational comes from the CFO, PFM, Bank of America and Landrum & Brown, our financial advisors. When MNAA got into the capital programs, we had to figure out what we had to do to satisfy the bond markets so that we would not get downgraded. And that is where the recommendation came in to shoot for \$1.25B and \$1.5B no one will mess with you. Commissioner Byrd asked where were we in the last year. Ms. Basrai replied, we were really high, like 18/19 times, we were using a lot of our Federal relief dollars which inflated the numbers. MNAA only has a couple of million left for this year and now we are back at normal levels.

President Kreulen at the Board Retreat next month, MNAA will give the Board a 10-year financial forecast that will show the \$3.4B factored in. We will highlight a given year where we are at 1.96 and if the Board allows us to down to 5, then we can go borrow another 500M. We will hold a financial summit later in the year. These metrics that have helped us get to where we are today, financially are very strong, and 10 years from now the Board may not want these and may need to borrow more money. Commissioner Byrd stated he is looking for reasonable incentives. President Kreulen stated that is how these have been created.

Chair Sullivan stated she feels like we are in the performance period now and can agree to add the Employee Satisfaction Survey and if we want to do an overall, maybe sometime in May next year, we can

review and see if these criteria fit where we are now. Commissioner Byrd stated he is extremely happy, it does not really bother him, when we set the KPIs that is what you are doing, if you are a CEO of a major publicly traded company, then you will have a KPI type of structure that your Board is going to look at and deciding if these are reasonable incentives.

Commissioner Joslin stated we have come a long way from where we were 15 years ago. He does not want to micromanage the CEO and thinks this is valuable for the future and a great starting point. We can modify it at any time if it needs to be changed, and it may not need to be changed. Chair Sullivan stated in May we will be far enough in the year and can review at that time. Commissioner Byrd stated he is happy to reevaluate in May, he just wanted to study it and make sure it makes sense.

President Kreulen stated he is really proud of what we have built and what the Board will see next week at the Board Retreat, the forecast is from 25 to 35, we are going to be slightly above those which is a good thing, but we could take on more risk and money if we lower the coverage and if the Board tells him to lower the coverage, then we can go borrow \$2B more. President Kreulen stated we may get a possible downgrade and may have to pay a higher interest rate. We will show big money challenges that are coming up. President Kreulen stated we will show debt service payments by year, and coverage by year, and the Board will be able to see everything and decide if we will take a risk.

Commissioner Joslin asked what is cash on hand. Ms. Basrai replied over \$1K. Commissioner Joslin stated that 15 years ago, we had 45 days of cash on hand. Commissioner Glover stated now we have 1 year. President Kreulen stated we have 3 years of cash on hand and stated from talking with other CEOs, they are not maintaining that kind of money. Commissioner Joslin stated it is not necessary to keep that much cash on hand.

Commissioner Byrd asked on the Employee Satisfaction Survey who is being measured. President Kreulen replied each fiscal year we do a survey and the next one will be in the March time period after we implement the results of our compensation survey and all this information will be provided at the Board Retreat next week. Commissioner Byrd stated it is pretty broad-based, it is measuring the security officer who is sitting down here directing traffic, versus the Chief Operating Officer, gets a blended result and is that what we want. Commissioner Joslin stated Chief of Police has the same thing, and he is probably the highest-rated chief we had, but still was not 100%, probably 80%, which is a good satisfaction rating.

Commissioner Byrd stated looking at strategic goals, are they the same strategic goals we are looking at this year. President Kreulen replied, we gave the Commissioners the FY24 Strategic Goals and the average completion on those is 86.4% and this year we presented the Commissioners new FY25 Strategic Goals that go into the three columns, Invest, Plan and Prepare. Commissioner Byrd asked how many, 52 goals. Ms. Lankford replied 20 goals, and each has supporting objectives, about 50 total. President Kreulen stated the Staff is working on dividing those categories and there are objectives under those goals and that is how each member of the Executive Team gets 6 or 7 goals each. Commissioner Byrd said forgive me for bringing all of this up. President Kreulen replied, this guides us and if you change this, then we change to make sure to meet your objectives.

Chair Sullivan recommended to the Board of Commissioners that it approve the FY25 CEO Key Performance Indicators as presented.

Chair Sullivan made a motion to approve, and Vice Chair Stevenson seconded the motion.

Chair Sullivan asked Ms. Saxman for a roll call:

Chair Sullivan – Yes

Vice Chair Stevenson – Yes

The motion was passed with a vote of 2 to 0.

VI. INFORMATION ITEMS

President Kreulen stated the FY24 Employee Performance Results budgets for FY24 Discretionary Employee Performance Incentive payout. This is the distribution curve of how the employees were rated by their supervisors and this is where the benchmark is. There are 386 employees who qualify for the FY24 Performance Incentive, only 5 or 6 did not qualify. The Finance team budgeted \$3.356M and when we pay out the incentives we will be under budget. As we continue to grow, next year it is already approved in the budget for 541 employees in the amount of \$4.8M. MNAA does a great job with benefits and pay, and incentives to encourage our employees to stay. Commissioner Byrd asked if it is about \$10K per person, and what is the average payout. President Kreulen replied it is in that range, he will get a calculation of what the average is. The payout goes from 7% for the entry level employees, to 10 – 12% for managers. Commissioner Byrd asked when they would receive the bonus. President Kreulen replied the Staff will receive it next Friday. Chair Sullivan asked what the turnover rate is and do you get it if you

leave. President Kreulen replied if you leave, then you are not eligible, we have about a 15% turnover, but we keep adding 30 – 40 employees a year.

ADJOURN

There being no further business brought before the Management Committee, Chair Sullivan adjourned the meeting at 10:38 a.m.

Andrew W. Byrd, Board Secretary

STAFF ANALYSIS

Management, Audit & Compliance Committee (Information Only)

Date: November 13, 2024
Facility: Nashville International Airport
Subject: FY2024 External Audit Report

I. Reports

Attached is the Annual Comprehensive Financial Report Fiscal Year 2024. The Annual Comprehensive Financial Report Fiscal Year 2024 covers the period from July 1, 2023 through June 30, 2024. The Pre-Audit Letter dated August 7, 2024, and the End of Audit Letter dated October 11, 2024 are also attached.

II. Analysis

A. Summary

In accordance with Section 3.1 of the Third Amended and Restated Bylaws (Bylaws) of the Board of Commissioners of the Metropolitan Nashville Airport Authority (MNA), Plante & Moran, PLLC (Plante Moran) was appointed Auditor/Independent CPA in June 2020 and there was an updated letter provided July 2024. In accordance with Section 3.3.3 of the Bylaws, Plante Moran is a certified public accounting firm licensed to practice in Tennessee.

Plante Moran has completed their independent annual audit of the financial affairs of the Authority for FY2024. Plante Moran's audit of the financial statements was conducted in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States.

Additionally, Plante Moran performed an audit of MNA's compliance with the requirements of the Uniform Grant Guidance (Single Audit) and with the requirements of the Passenger Facility Charge (PFC) Program. The audit was conducted based on the compliance requirements described in the U.S. Office of Management and Budget's (OMB) Compliance Supplement that could have a direct and material effect on MNA's major federal program for the year ended June 30, 2024, and applicable requirements in the PFC Audit Guide for Public Agencies, issued by the Federal Aviation Administration.

Final documentation includes an audit opinion of the fairness of the basic financial statements, a report on internal controls over financial reporting, a report on compliance with the Uniform Grant Guidance and with the requirements of the PFC Program, a schedule of expenditures of federal and state awards as required by Title 2 U.S. Code of Federal Regulations Part 200, and any other reports and schedules deemed necessary.

B. Impact/Findings

No action is required by the Management Committee as this staff analysis is presented for informational purposes.

Plante Moran has issued an unmodified opinion on MNAA's FY2024 financial statements. An unmodified opinion is the best opinion that an organization can receive on its financial statements.

Additionally, Plante Moran determined that MNAA complied, in all material respects, with the types of compliance requirements that could have a direct and material effect on the major federal program and the PFC program for the Year Ended June 30, 2024.

Plante Moran did not identify any significant deficiencies or findings, during the audit. A copy of the report will be provided in the committee packet.

C. Strategic Priorities

- Invest in BNA/JWN
- Plan for the Future
- Prepare for the Unexpected

Board of Commissioners
Metropolitan Nashville Airport Authority
140 BNA Park Drive, Suite 520
Nashville, TN 37214

Dear Board of Commissioners:

We are in the process of planning for the audit of the financial statements of the Metropolitan Nashville Airport Authority (“the Authority”) for the year ended June 30, 2024. An important aspect of planning for the audit is communication with those who have responsibility for overseeing the strategic direction of the Authority and obligations related to the accountability of the Authority. At the Authority, these responsibilities and obligations are held by the Board of Commissioners, collectively and individually; therefore, it is important for us to communicate with each of you in your role as a member of the Board of Commissioners.

As part of this communication process, we have spoken at length with Ms. Nancy Sullivan, Chair of the Board of Commissioners regarding our responsibilities under generally accepted auditing standards and the planned scope and timing of our audit. The purpose of this letter is to provide each of you with a summary of those discussions and to provide you with the opportunity to communicate with us on matters that may impact our audit.

Our Responsibility Under Generally Accepted Auditing Standards and Generally Accepted Government Auditing Standards

As stated in our engagement letter addressed to Mr. Douglas E. Kreulen and dated February 14, 2024, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

In accordance with Generally Accepted Government Auditing Standards (GAO Standards), we are required to communicate all noncompliance with provisions of laws, regulations, contracts, or grants that have a material effect on the financial statements that comes to our attention. GAO Standards also require that we report any instances of abuse identified during that audit that could be quantitatively or qualitatively material to the financial statements.

Overview of the Planned Scope and Timing of the Audit

Ali H. Hijazi is the engagement partner responsible for supervising our services performed as part of this engagement. Our audit fieldwork will include three phases. The planning and preliminary information-gathering phase will occur during June and July; the risk assessment phase in July; and the rest of our audit procedures will be performed during August and September.

To plan an effective audit, we must identify significant risks of misstatement in the financial statements, including those related to changes in the financial reporting framework or changes in the Authority’s environment, financial condition, or activities, and design procedures to address those risks.

Because management is in a unique position to perpetrate fraud due to its ability to manipulate accounting records and prepare fraudulent financial statements by overriding controls that otherwise appear to be

operating effectively, generally accepted auditing standards require that we always consider this to be a significant risk. In addition, we identified the following significant risks of misstatement:

- Proper measurement and recognition of revenue for amounts received under significant new grants or agreements, including the newly opened Hilton BNA Nashville Airport Hotel and the Airline Use and Lease Agreement.
- Valuation of the total pension and OPEB (other postemployment benefit) liabilities due to the significance of estimation involved due to the selection of assumptions and use of actuarial methods.

In response to these identified significant risks, we will perform the following:

- Testing of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements.
- Obtaining significant new grant agreements and contracts and comparison of the revenue recognition requirements to amounts recorded to evaluate whether the accounting is in accordance with generally accepted accounting principles.
- Evaluate the key factors, assumptions and methodologies used to develop the total pension and OPEB liabilities to determine if they are reasonable in relation to the financial statements taken as a whole.

We will gain an understanding of accounting processes and key internal controls through a review of the accounting procedures questionnaires and control procedures questionnaires prepared by management. We will confirm through observation and inspection procedures that accounting procedures and controls included in the questionnaires have been implemented.

We will not express an opinion on the effectiveness of internal control over financial reporting; however, we will communicate to you significant deficiencies and material weaknesses identified in connection with our audit.

The concept of materiality is inherent in our work. We place greater emphasis on those items that have, on a relative basis, more importance to the financial statements and greater possibilities of material error than with those items of lesser importance or those in which the possibility of material error is remote.

Information from You Relevant to Our Audit

An important aspect of this communication process is the opportunity for us to obtain from you information that is relevant to our audit. Your views about any of the following are relevant to our audit:

- The Authority's objectives and strategies and the related business risks that may result in material misstatements
- Matters that you consider warrant particular attention during the audit and any areas where you want to request additional procedures be undertaken
- Significant communications with regulators
- Understanding of the Authority's relationships and transactions with related parties that are significant to the Authority and any concerns regarding those relationships or transactions
- The attitudes, awareness, and actions concerning:

- The Authority's internal control and its importance to the Authority, including how the Board of Commissioners oversees the effectiveness of internal control and the detection or possibility of fraud
- The detection or possibility of fraud, including whether the Board of Commissioners has knowledge of any actual, suspected, or alleged fraud affecting the Authority
- Any significant unusual transactions the Authority has entered into
- The actions of the Board of Commissioners in response to developments in accounting standards, regulations, laws, previous communications from us, and other related matters and the effect of such developments on, for example, the overall presentation, structure, and content of the financial statements, including the following:
 - The relevance, reliability, comparability, and understandability of the information presented in the financial statements
 - Whether all required information has been included in the financial statements and whether such information has been appropriately classified, aggregated or disaggregated, and presented
- Other information included in the annual comprehensive financial report comprises the introductory section, statistical section and continuing disclosures. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements or the other information otherwise appears to be misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Management expects that final versions of other information will be provided to us prior to the date of the auditor's report.

If you have any information to communicate to us regarding the above or any other matters you believe are relevant to the audit, or if you would like to discuss the audit in more detail, please call us at (586) 416-4975 (Ali), (810) 766-6022 (Pam) or (586) 416-4907 (Veronica) as soon as possible. Thank you for your time and consideration in this important aspect of the audit process. You can expect to hear from us again after the completion of our audit when we will report to you the significant findings from the audit.

Very truly yours,

Plante & Moran, PLLC

October 11, 2024

To the Board of Commissioners
Metropolitan Nashville Airport Authority

We have audited the financial statements of the Metropolitan Nashville Airport Authority (the "Authority") as of and for the year ended June 30, 2024 and have issued our report thereon dated October 11, 2024. Professional standards require that we provide you with the following information related to our audit.

Our Responsibility Under U.S. Generally Accepted Auditing Standards

As stated in our engagement letter dated February 14, 2024, our responsibility, as described by professional standards, is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities. Our responsibility is to plan and perform the audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement.

As part of our audit, we considered the internal control of the Authority. Such considerations were solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures specifically to identify such matters.

Our audit of the Authority's financial statements has also been conducted in accordance with *Government Auditing Standards*, issued by the Comptroller General of the United States. Under *Government Auditing Standards*, we are obligated to communicate certain matters that come to our attention related to our audit to those responsible for the governance of the Authority, including compliance with certain provisions of laws, regulations, contracts, and grant agreements; certain instances of error or fraud; illegal acts applicable to government agencies; and significant deficiencies in internal control that we identify during our audit. Toward this end, we issued a separate letter dated October 11, 2024 regarding our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements.

Planned Scope and Timing of the Audit

We performed the audit according to the planned scope and timing previously communicated to you in our letter about planning matters dated August 7, 2024.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of our engagement letter, we will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Authority are described in Note 2 to the financial statements.

No new accounting policies were adopted, and the application of existing policies was not changed during 2024.

We noted no transactions entered into by the Authority during the year for which there is a lack of authoritative guidance or consensus.

We noted no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were as follows:

- Pension liabilities - Including the actuarial methods and assumptions, such as future rate of return on investments, employee eligibility rates, life expectancies, and projected salary increases, which are based on plan provisions and payroll data
- OPEB (other postemployment benefit) liabilities - Including the actuarial methods and assumptions, such as future rate of return on investments, employee eligibility rates, life expectancies, and projected health care cost trends, which are based on health care-related trends

We have evaluated the key factors and assumptions used to develop these estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

The disclosures in the financial statements are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit.

Disagreements with Management

For the purpose of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. We did not detect any misstatements as a result of audit procedures.

Significant Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the Authority, and business plans and strategies that may affect the risks of material misstatement, with management each year prior to our retention as the Authority's auditors. However, these discussions occurred in the normal course of our professional relationship, and our responses were not a condition of our retention.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 11, 2024.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a second opinion on certain situations. If a consultation involves application of an accounting principle to the Authority's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Information Included in Annual Reports

Our responsibility for other information included in annual reports does not extend beyond the financial statements, and we do not express an opinion or any form of assurance on the other information. However, we read the introductory section, other information, and statistical section schedules, and nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially misstated or materially inconsistent with the information or manner of its presentation appearing in the financial statements.

Upcoming Accounting Standards Requiring Preparation

We actively monitor new Governmental Accounting Standards Board (GASB) standards and due process documents and provide periodic updates to help you understand how the latest financial reporting developments will impact the Authority.

GASB Statement No. 101 - Compensated Absences

This new accounting pronouncement will be effective for fiscal years ending December 31, 2024 and after. The statement requires all compensated absences be reported under a new unified model that provides recognition and measurement guidance for all compensated absences that meet certain criteria. This is a major shift from the prior standards that provided different recognition and measurement guidance for vacation leave versus sick leave. Under the new standard, all compensated absences (with some exceptions like parental leave and military leave) that meet three criteria are to be recognized (accrued). The three criteria are (1) the absence accumulates, (2) the absence is attributed to services already performed, and (3) the absence is more likely than not to be either paid or settled through other means.

A few of the more significant changes from prior guidance include the elimination of specific recognition criteria for sick leave (GASB 16's termination payment method and vesting method) in lieu of standard recognition criteria for all types of compensated absences that meet the criteria. In addition, the prior standards used the "probable criteria" as a measurement stick for recognition; GASB 101 lowers that threshold to more likely than not. More likely than not means a likelihood of more than 50 percent. Because GASB 101 does not prescribe the manner in which these leave liabilities are estimated once the criteria are met, organizations will have significant latitude in how these estimates are determined. Because of this, there may be additional reporting and additional disaggregation of historical employee leave usage information that may be required in order to come up with an accurate estimate of these liabilities. We strongly suggest the Authority start thinking about these changes now, brainstorm estimation methodologies, and begin gathering the necessary information in order to successfully adopt this new standard.

GASB Statement No. 102 - Certain Risk Disclosures

This new accounting pronouncement will be effective for fiscal years ending June 30, 2025 and after. This statement requires a government to assess whether a concentration or constraint makes the primary government or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. It also requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. If certain criteria are met for a concentration or constraint, disclosures are required in the notes to the financial statements.

GASB Statement No. 103 - Financial Reporting Model Improvements

This new accounting pronouncement will be effective for fiscal years ending June 30, 2026 and after. This statement establishes new accounting and financial reporting requirements, or modifies existing requirements, related to the following: management's discussion and analysis; unusual or infrequent items; presentation of the proprietary fund statement of revenue, expenses, and changes in net position; information about major component units in basic financial statements; budgetary comparison information; and financial trends information in the statistical section.

Significant GASB Proposal Worth Watching

The Revenue and Expense Recognition project aims to develop a comprehensive accounting and financial reporting model for transactions that result in revenue and expenses. The GASB has issued a preliminary views document that proposes a new categorization framework that replaces the exchange/nonexchange transaction notion with a four-step categorization process for classifying a transaction. In addition to this new framework, the proposal also addresses recognition and measurement of revenue and expense transactions. The exposure draft for this project is expected sometime in 2025.

Plante & Moran, PLLC has spent significant time digesting this new proposed standard and recently testified to the GASB about our feedback. We strongly encourage the Authority to monitor developments with this standard, as the potential impact is quite broad.

We welcome any questions you may have regarding this communication, and we would be willing to discuss these or any other questions that you might have at your convenience.

This information is intended solely for the use of the board of commissioners and management of the Authority and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Plante & Moran, PLLC

Metropolitan Nashville Airport Authority
Letter of Transmittal

October 11, 2024

To the Board of Commissioners of the Metropolitan Nashville Airport Authority,

The Annual Comprehensive Financial Report (“ACFR”) of the Metropolitan Nashville Airport Authority (“the Authority” or “MNA”) as of and for the fiscal years ended June 30, 2024 and 2023, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the Authority. To the best of our knowledge and belief, this report fairly presents and fully discloses the Authority’s financial position, results of operations, and cash flows in accordance with accounting principals generally accepted in the United States of America (“GAAP”). It includes disclosures necessary to enable the reader to gain an understanding of the Authority’s financial activities included within the ACFR. The report of the independent auditors on the financial statements is included on pages 22-24 of the ACFR.

The ACFR was prepared following the guidelines recommended by the Government Finance Officers Association of the United States and Canada (“GFOA”). The GFOA awards Certificates of Achievement to those governments whose annual financial reports are judged to conform substantially to the high standards of public financial reporting, including GAAP promulgated by the Governmental Accounting Standards Board (“GASB”).

The management of the Authority is responsible for establishing and maintaining an internal control structure that is designed to ensure that the assets of the Authority are safeguarded. In addition, as a recipient of federal financial assistance, the Authority is responsible to make certain that an adequate internal control structure is in place to ensure compliance with general and specific laws and regulations related to the Airport Improvement Program and the Aviation Safety and Capacity Expansion Act.

The objectives of an internal control structure are to provide management with reasonable assurance that the resources are safeguarded against waste, loss and misuse, and reliable data are recorded, maintained, and fairly disclosed in reports. The current internal controls provide the Authority with a solid base of reliable records from which the financial statements are prepared. These accounting controls ensure that accounting data are reliable and available to facilitate the preparation of financial statements on a timely basis. Inherent limitations should be recognized in considering the potential effectiveness of any system of internal control. The concept of reasonable assurance is based on the recognition that the cost of a system of internal control should not exceed the benefits derived and that the evaluation of those factors requires estimates and judgment by management.

The Authority’s financial statements for the years ended June 30, 2024 and 2023 have received an “unmodified opinion” from Plante & Moran, PLLC, the Authority’s independent certified public accountants. An unmodified opinion is the best opinion that an organization can receive on its financial statements. It indicates that the auditor’s examination has disclosed no conditions that cause them to believe that the financial statements are not fairly presented in all material respects.

An independent audit was also performed by Plante & Moran, PLLC, in accordance with the requirements of the Uniform Grant Guidance (2 CFR Part 200), i.e., Single Audit. The auditor’s reports related specifically to the Single Audit are immediately following the ACFR in the Compliance Section.

A third audit was performed by Plante & Moran, PLLC, as required under Federal Aviation Regulation, Part 158 (Passenger Facility Charges). The auditor’s reports related to the schedule of Passenger Facility Charges are immediately following the ACFR in the Compliance Section.

Metropolitan Nashville Airport Authority Letter of Transmittal

This ACFR was prepared to meet the needs of a broad spectrum of financial statements readers and is divided into the following sections:

Introductory Section – In addition to serving as a transmittal letter, this section provides the reader with an introduction to the ACFR and the Authority. The introductory section includes background information on the reporting entity, its operations and services, accounting systems and budgetary controls, overview of the local economic conditions, its long-term financial planning and certain other pertinent information. It is complementary to financial and analytical data offered in the Management's Discussion and Analysis ("MD&A") and the Statistical Section of the ACFR discussed below. The information contained in this section is prepared by the Authority and is not part of the independent auditor's report.

Financial Section – The independent auditor's report, MD&A, financial statements, notes to the financial statements, required supplementary information, and other supplementary information are included here. These are the Authority's basic financial statements and provide an overview of the Authority's financial position. The MD&A immediately follows the independent auditor's report and complements this letter of transmittal and should be read in conjunction with it.

Statistical Section – The supplementary information presented in this section is designed to provide additional historical perspective, context, and detail to assist a reader to understand and assess the Authority's economic condition beyond what is provided in the financial statements and notes to the financial statements. The information contained in this section is prepared by the Authority and is not part of the independent auditor's report.

Annual Disclosure Report – The annual disclosure schedules reflect information in accordance with the requirements of Rule 15c2-12 promulgated by the Securities and Exchange Commission and as set forth in the Continuing Disclosure Undertaking for issued debt. The information contained in this section is prepared by the Authority and is not part of the independent auditor's report.

Compliance Section – This section presents schedules and footnotes prepared to meet the requirements of the U.S. Office of Management and Budget 2 CFR Part 200 as well as Federal Aviation Administration requirements applicable to the Passenger Facility Charge Program and in accordance with 14 CFR Part 158.

REPORTING ENTITY BACKGROUND

The Authority is a metropolitan airport authority created on February 9, 1970, pursuant to state statute and is an independent political subdivision of the State of Tennessee. The major purposes of the Authority are the operation, financing, and development of Nashville International Airport® ("BNA®") and John C. Tune Airport® ("JWN®"), a general aviation reliever airport.

The Authority also owns MNAA Properties Corporation ("MPC"), a Tennessee nonprofit corporation, whose purpose is to support and facilitate the operations of the Authority and to help the economic development of the surrounding area. The Authority has all the powers of a governmental entity necessary to accomplish its purpose, such as acquiring land and constructing airport facilities; issuing revenue bonds and other tax-exempt indebtedness; maintaining its own police and aircraft rescue and firefighting ("ARFF"); setting rates and charges for airlines; and setting rates for all activities on airport properties. Although the Authority has an independent governing body, based upon the criteria set forth by the Governmental Accounting Standards Board, it has been determined the Authority is a component unit of the Metropolitan Government of Nashville and Davidson County, Tennessee as of June 30, 2024.

As of June 30, 2024 the Authority's Board of Commissioners consists of seven members who serve without compensation, all of whom are appointed by the Metropolitan Government Mayor and approved by the Metropolitan Government Council. By state law, the commissioners represent different professional and management disciplines, including engineering, aviation, law, commerce, finance, and industry. The Board appoints the Authority's President and CEO, who is the chief executive and administrative officer

Metropolitan Nashville Airport Authority Letter of Transmittal

responsible for day-to-day operations and planning for both airports and MPC. The President and CEO leads a full-time staff of professional and technical personnel, with a headcount of 430 positions for fiscal year 2024. Authority staff are actively engaged with many trade and community organizations, often receiving awards, and serving in leadership positions.

AUTHORITY OPERATIONS AND SERVICES

The Authority is self-supporting, using aircraft landing fees, fees from terminal and other rentals and revenue from parking, concessions, and various additional sources to fund operating expenses. The Authority is not taxpayer funded. The Capital Improvement Program is funded by bonds issued by the Authority, federal and state grants, passenger facility charges (PFCs), and other discretionary funds.

Airline Use and Lease Agreement

Leases. Revenues received from the airlines are derived from rentals, fees and charges imposed upon airlines operating at BNA under the MNAA Signatory Airline Use and Lease Agreement (the "Airline Agreement"). The following airlines are parties to such agreements: Alaska Airlines, Allegiant Air, American Airlines, Delta Air Lines, Frontier Airlines, Federal Express, JetBlue Airways, Southwest Airlines, Spirit Airlines and United Airlines (collectively, the "Signatory Airlines"). During fiscal year 2024, the Authority entered into a new Signatory Airline Use and Lease Agreement with an eight-year term from July 1, 2023 to June 30, 2031, The Agreement contains a two-year option to extend through mutual agreement between the Authority and the signatory airlines no less than two years before expiration.

Rates and Charges. The Authority created five airline cost centers for the purpose of accounting for and allocating costs and revenues at the airport to establish rates and charges for use of the airfield, the terminal, the terminal ramp area, baggage handling system and passenger boarding bridges. In addition to the five airline cost centers, the Authority also allocates costs and revenues to three Authority cost centers (parking and ground transportation, other buildings and areas, and the reliever airport) and one indirect cost center (general administration and overhead). A percentage of the Authority's indirect cost center is allocated to the direct airline cost centers, calculated by all airline and other cost centers. As described below, rate-setting at the airport is "hybrid". Landing fees are calculated using a residual methodology, the terminal rental rates are calculated using a commercial compensatory methodology, and other rates are calculated using a compensatory methodology. In the airfield cost center, the airlines have the primary responsibility, risk, and benefit from non-airline revenues. In the four other airline cost centers, the Authority and airlines share the responsibility, risk, and benefits.

Majority-in-Interest Approvals Relating to Authority's Capital Projects. Signatory Airlines have Majority-in-Interest ("MI") review rights for capital projects in the airfield cost center exceeding \$2.0 million. The form of MI is negative (e.g., the Authority may proceed unless it receives disapproval from the majority). Rolling debt service coverage is incorporated into the rate calculations for all airline cost centers.

The Airline Industry

In the summer of 2023, the aviation industry witnessed a significant recovery as the world gradually emerged from the grip of the pandemic. Looking ahead, the path to full recovery may not be smooth, as the industry struggles with aircraft, parts, and labor shortages alongside fluctuating travel demands. Carriers in the U.S. are grappling with an ongoing capacity crunch as U.S. airline capacity continues to be trimmed. Based on current schedules, domestic capacity growth in the back half of the 2024 calendar year is estimated to be 3.5%.

While many airlines are seeking to expand their fleet, aircraft manufacturers are experiencing supply chain issues and struggling to fulfill orders on time. In the first quarter of calendar year 2024, Boeing delivered just 83 aircraft - down from 130 in the first quarter of 2023. Rival Airbus delivered 142 aircraft, which fell short of its initial expectations for the quarter. Against this backdrop, transatlantic travel remains strong, with U.S. consumers – buoyed by a strong dollar – flocking to destinations across Europe.

Metropolitan Nashville Airport Authority
Letter of Transmittal

Airport Activity

Nashville International Airport completed another record-breaking year in fiscal year 2024 with 11.8 million enplanements, an 8.3% increase from the previous year's 10.9 million enplanements. Nashville International Airport averages 660 daily airline arrivals and departures to 98 nonstop destinations.

	<u>2024</u>	<u>2023*</u>	<u>2022</u>
Enplanements	11,826,204	10,919,899	9,217,710
% (decrease) increase	8.3	18.4	78.9
Aircraft landed weight (all-000)	13,823,559	12,918,074	11,043,360
% (decrease) increase	7.0	17.0	40.3
Aircraft operations (all)	274,335	262,783	244,622
% (decrease) increase	4.4	7.4	35.4
Load factors	78.4%	79.3%	78.9%
% (decrease) increase	(1.1)	0.5	34.0

*FY 23 enplanements and landed weights were amended down during FY24 due to an error found after they were published.

ACCOUNTING SYSTEM AND BUDGETARY CONTROLS

The Authority's Budget

Prior to the commencement of each fiscal year, the Authority prepares operating and capital budgets which are reviewed by various committees of the Board of Commissioners and legally adopted by the full Board of Commissioners.

The budget contains an estimate of current operational and capital expenses, including for the operation and development of airports under the jurisdiction of the Authority and the amount necessary to pay the principal and interest of any outstanding bonds or other obligations of the Authority maturing during the ensuing fiscal year. The budget also contains an estimate of revenue of the Authority from all sources for the next fiscal year.

Budgeting serves as an important management tool to plan, control, and evaluate the operations and capital needs of the Authority. BNA, JWN, and MPC operating budgets are the Authority's annual financial plan for operating and maintaining the airport and other properties. The operating expense and revenue budgets must be sufficient to cover the operating and maintenance expenses of the airports and the debt service payable on bonds and other known financial requirements for the ensuing fiscal year. The Capital Improvement Program budget is the Authority's plan for the design and construction of major improvements and new facilities at the airports and MPC with a five-year horizon. The Authority's basis of budgeting is in accordance with GAAP, which is the same as the Authority's accounting basis.

Budgetary control is required to ensure that expenditures do not exceed appropriations. The Authority maintains this control with an encumbrance system. As purchase orders are issued, corresponding amounts of appropriations are reserved with encumbrances to prevent overspending. Amendments to the budget are subject to approval by the Board in accordance with the terms outlined in the Board resolution adopted with the budget. The independent monitoring of the budget continues throughout the fiscal year for management control purposes. Each month, Finance reviews and analyzes all revenue and expense accounts to compare actual to prior year actual and to budget. The findings are reported to the Board in the monthly board packet.

THE AUTHORITY'S ECONOMIC CONDITION

Population and Air Trade Area

BNA resides in a region which the United States Office of Management and Budget (OMB) defines as the Nashville-Davidson-Murfreesboro-Franklin Metropolitan Statistical Area (MSA) and is composed of 14 counties of Cannon, Cheatham, Davidson, Dickson, Hickman, Macon, Maury, Robertson, Rutherford, Smith, Sumner, Trousdale, Williamson, and Wilson Counties. The Nashville-Davidson-Murfreesboro-Franklin MSA is the 36th most populated MSA in the United States with approximately 2.1 million people and serves as the airport "air service area".

BNA is the primary commercial air service facility serving the Nashville metropolitan area and is the largest airport in the state of Tennessee and the only large hub in the region. BNA serves as the primary commercial service airport for the air service area. This area is generally isolated from competing airport facilities and, hence, BNA has limited competition for air service. Huntsville International Airport (HSV) is the closest airport; about 125 (driving) miles from the Airport. The next closest airport is Chattanooga Metropolitan Airport (CHA) which is about 145 (driving) miles away. Louisville International Airport (SDF) and Knoxville McGee Tyson Airport (TYS) are about 175 (driving) miles from BNA. Paducah Barkley Regional Airport (PAH) is a non-hub airport about 150 (driving) miles from the Airport with only Essential Air Service. Memphis International Airport (MEM) is a medium hub airport about 220 (driving) miles from the airport. Other commercial service airports in the region are small facilities and the more comparable small hub airports are over 175 miles away. Other medium and large hub airports are over 250 miles from BNA, with Hartsfield-Jackson Atlanta International Airport (ATL) the nearest at approximately 255 (driving) miles.

In calendar year 2023, BNA ranked 28th nationwide in enplaned passengers with 11,227,159 enplanements, making BNA a large hub airport as classified by the FAA.

Economy

According to the Nashville Area Chamber of Commerce 2023 Regional Economic Development Guide "The Nashville region's economy continues to be a key driver of business activity in Tennessee and the southeast region. Robust health care, technology, corporate operations, manufacturing, and supply chain management sectors make Nashville one of the country's most dynamic growth centers. Nashville has ranked within the top 10 large metropolitan areas for job growth and population growth for the past 10 years. The region experiences low unemployment, steady in-migration, and a favorable business climate, making it a top location for companies looking to relocate or expand their businesses." Unemployment rates in the Nashville-Davidson-Murfreesboro-Franklin MSA were 3.0 percent as of both June 2024 and 2023.

NASHVILLE HIGHLIGHTS

Nashville often receives honors and rankings within the travel industry. Nashville's culturally diverse and friendly environment makes it a popular place for conventioners and tourists alike, as well as a great place to work, live and raise a family. A sampling of Nashville's recent accolades follows:

- Nashville is named one of the Best Cities for Hockey Fans by Wallet Hub. (May 2024)
- Nashville ranked twice in Global Traveler's 2024 Leisure Lifestyle Awards. (May 2024)
 - #1 Best Leisure Destination in the U.S.
 - #4 Best Adventure Destination, Domestic
- Nashville is rated #13 in Travel + Leisure's The Best Fourth of July Celebrations Across the U.S. (May 2024)
- Nashville is named #3 in The South's Best Cities 2024 by Southern Living. (March 2024)

Metropolitan Nashville Airport Authority Letter of Transmittal

- Nashville ranked twice in Trip Advisor's Traveler's Choice Awards - Best of the Best 2024. (January 2024)
 - #6 Best Food Destinations in the United States
 - #7 Top Destinations – United States
- Nashville landed #8 in The Best Cities in the U.S.: 2023 Readers' Choice Awards by Conde Nast Traveler. (October 2023)
- Nashville represents three USA Today's 10 Best Readers' Choice Awards. (October 2023)
 - #1 Best Airport Grab-And-Go Food – 400 Degrees Hot Chicken
 - #1 Best Airport for Shopping – Nashville International Airport (BNA)
 - #3 Best Airport Bar – Tootsies Orchid Lounge
 - #5 Best Large Airport – Nashville International Airport (BNA)
- Nashville ranked #8 among Travel + Leisure's Readers' 15 Favorite Cities in the U.S. of 2023. (July 2023)

Nashville Facts are courtesy of the Nashville Convention and Visitors Bureau.

FISCAL YEAR 2024 AWARDS AND RECOGNITION AT BNA

Throughout fiscal year 2024, BNA celebrated numerous achievements, events, and celebrations:

- Unveiled the new International Arrivals Facility, expanding BNA's international air service capabilities.
- Opened the highly anticipated BNA Marketplace, offering Nashville's best cuisine and retail shops.
- Greeted participants at the 27th Aviation Classic Golf Tournament with proceeds benefitting Operation Stand Down Tennessee (OSDTN), Mental Health Cooperative (MHC), Tennessee State University, and Nashville Cherry Blossom Festival.
- Opened the brand-new Satellite Concourse featuring 8 new gates.
- Celebrated the opening of the Hilton® BNA Nashville Airport Terminal with ribbon-cutting and grand opening event, marking the successful culmination of the seven-year *BNA Vision* expansion plan.
- Hosted the Annual AAAE Conference & Exposition, smashing attendance records.
- Added multiple nonstop routes to our portfolio:
 - Southwest began new nonstop service to Cincinnati, OH (CVG), Greenville-Spartanburg, SC (GSP) and Richmond, VA (RIC).
 - Alaska Airlines began direct service to Portland, Oregon.
 - WestJet announced a new international route starting Fall 2024, beginning direct service from BNA to Winnipeg and marking BNA's 6th Canadian city with nonstop service.
 - British Airways' aircraft size increased for their daily service to Nashville on the British Airways 777-200ER, increasing capacity from 214 to 272 seats.

BNA was bestowed the following awards during fiscal year 2024:

- BNA's Grand Hall featuring the Grand Lobby and BNA Marketplace was named Commercial Service Airport Project of the Year (Architecture) by the SEC-AAAE.

Metropolitan Nashville Airport Authority Letter of Transmittal

- General aviation airport John C. Tune was awarded General Aviation Project of the Year (Architecture) from the SEC-AAAE for the construction of the Maintenance and Administration Building.
- Whisky Trailhead was awarded Best New Retail Concept by ACI-NA Airport Concessions Awards.
- Green Room Lounge & Whisky Bar awarded Best Bar Experience (Large Airport) by Airport Experience News (AXN).
- Kroll Bond Rating Agency affirmed MNAA's AA- Senior Lien Bond Rating and A+ Subordinate Bond Rating.
- Paradies Lagardère won big at the 26th FAB Awards, an International Awards program for Fat Bottom Brewery, taking home Regional Winner for Airport Food & Beverage Offer Best Representing Sense of Place.

FISCAL YEAR 2025 BUDGET

As fiscal year 2024 activity outpaced the activity in fiscal year 2023, and the budgeted activity for fiscal year 2023, the Authority continues to plan and budget for growth. The fiscal year 2025 budget included a 5.4% increase in enplanements, and a 3.1% increase in landed weights. The Authority feels this is a conservative approach as the fiscal year 2024 and 2023 year over year enplanement growth was 8.3% and 18.7% respectively. This approach should enable the Authority to meet or exceed the budgeted performance in fiscal year 2025, and through two months of fiscal year 2025, budgeted activity levels for both enplanements and landed weights have exceeded budget.

LONG-TERM FINANCIAL PLANNING

The Authority's long-term financial planning includes the completion of certain approved capital projects and the accumulation of sufficient resources required to service the debt issued to finance these projects, as well as to operate and maintain the airports. Under the terms of the Airline Agreement, certain fees and charges paid by airlines are used along with other non-airline income from BNA to service the debt issued to finance the construction program.

Capital Improvement Program

The Authority maintains an ongoing Capital Improvement Program (CIP) to expand, modernize, and maintain BNA, JWN, and MPC. In addition to renovations and modernization of certain existing facilities, the CIP includes construction of the principal elements of the Master Plan for each airport. The master plans establish the framework for the CIP that is necessary for the development of the Authority.

During fiscal year 2024, the Authority completed the *BNA Vision* capital program, which was an extensive, multi-phased capital improvement program. *BNA Vision* was a major renovation and expansion project intended to enable BNA to meet future needs.

Specific elements of *BNA Vision 1.0* and *2.0*, totaling approximately \$1.5 billion, include the following:

Terminal Garage 2

A six-story structure to the south of the terminal with approximately 2,200 spaces. Terminal garage 2 opened in December 2018.

Terminal Lobby Renovation and International Arrival Facility (IAF)

The project provides travelers with an expanded and visually-pleasing central terminal, a marketplace with exciting dining and shopping options, and a state-of-the-art international arrivals

Metropolitan Nashville Airport Authority Letter of Transmittal

facility which replaced the interim international arrivals facility. The terminal lobby opened January 24, 2023, and the marketplace and IAF opened September 27, 2023.

Concourse D, Terminal Wings, Ticketing and Baggage Claim Expansion

The project revived and expanded BNA's Concourse D and enlarged the existing ticketing lobby and baggage claim. The north and south terminal wing expansion, expanded baggage claim, and Concourse D are now open.

Terminal Garage 1

The project includes a six-level parking garage near the terminal, a new administrative office building and pedestrian plaza. The garage, administrative offices, and pedestrian plaza are now open.

Donelson Pike Relocation and Terminal Access Roadway Improvements – Phase 1

With mounting traffic and airport utilization, the Donelson Pike Relocation and Terminal Access Roadway Improvements projects are vital to improving access and circulation around BNA. Construction for this project is multi-phased and ongoing.

Satellite Concourse

The project produced an eight-gate, free-standing satellite concourse near the main terminal and provide more gates to meet the increasing air travel demand in Middle Tennessee. The satellite concourse opened in October 2023.

Runway 2L/20R Extension – EA/Preliminary Design and Property Acquisition

The project will allow BNA to accommodate larger aircraft. This is imperative as BNA seeks to expand to more international markets in Asia and Europe.

Concourse A Site Preparation, Fill, and Ramp Paving

The project will prepare an area adjacent to the existing Concourse A to allow for future expansion.

In June 2022, the Authority announced a new capital initiative, *New Horizon*, which includes additional expansion projects to accommodate future demand beyond what was contemplated when the *BNA Vision* program was developed. The *New Horizon* design phase began in August 2022. Construction of Concourse D began in late 2023, and of all projects are targeted for completion by late 2028. In August 2024, the Authority amended the original *New Horizon* program and proposed the *New Horizon I* (airside) program scope and budget of \$1.62B, including the following:

Concourse A and D Improvements

Concourse A and D will see extensions and improvements including additional gates, moving walkways, and additional concessions. The Concourse D extension is anticipated to add five additional gates and to provide operational flexibility during the construction of a new Concourse A, as the existing six gates on Concourse A will be demolished. The new Concourse A is anticipated to have sixteen gates upon completion.

Baggage Handling System Improvements

Upgrades to the baggage handling system will sort bags by flight, speed security inspections, and deliver passenger luggage to and from each aircraft faster.

Central Ramp Expansion

MNAA identified the land depression east of the existing terminal apron between Taxiways T4, L, B, and T2 and the existing Central Ramp (also known as the "guitar pick") as the preferred location for a ramp expansion to provide needed overnight aircraft parking positions and deicing areas. The selected location offers an opportunity for a phased approach for potential future expansion. The first phase shall consist of seven aircraft parking positions for overnight parking and deicing.

Metropolitan Nashville Airport Authority Letter of Transmittal

Additionally, the Authority is working on the scope of *New Horizon II* (landside) which is in final development and is planned to include additional terminal area roadway improvements, demolition of the existing Donelson Pike, loop road and bridges, a parking garage and surface lot, and a new consolidated rental car facility (CONRAC).

The Authority will continue to actively assess and manage its capital needs to determine the necessary modifications to the CIP to accommodate evolving priorities with respect to demand-driven traffic activity, operational needs of the airport, and other factors. The Authority's CIP is subject to frequent review and modification based on expected funding priorities of the Airport System.

Airport Improvement Program

The Authority participates in the Airport Improvement Program (AIP), the Federal government's airport grant program. The AIP provides funding for airport development, airport planning and noise compatibility programs from the Airport and Airway Trust Fund. The AIP also provides both entitlement and discretionary grants for eligible projects. The Authority also receives grants from the State of Tennessee.

Passenger Facility Charges

In 1990, Congress approved the Aviation Safety and Capacity Expansion Act, which authorizes domestic airports to impose a PFC on enplaning passengers. In May 1991, the FAA issued the regulations for the use and report of PFCs. PFCs may be used for projects which meet at least one of the following criteria: preserve or enhance safety, security, or capacity of the national air transportation system, reduce noise or mitigate noise impacts resulting from an airport, or furnish opportunities for enhanced competition between or among air carriers.

The FAA has approved twenty-three PFC applications and amendments submitted by the Authority. The Authority is currently authorized to impose and use a PFC of \$4.50 per enplaned passenger up to \$1.6 billion, which includes amounts for the payment of principal, interest, and other financing costs on bonds for which the proceeds are used to pay PFC-eligible costs on approved projects.

As of June 30, 2024, the Authority has received approximately \$545 million of PFC revenue, and interest earnings of approximately \$37 million. The Authority has expended approximately \$393 million on approved projects. The current PFC expiration date is estimated at March 1, 2045.

OTHER INFORMATION

Awards and Achievement

The GFOA awarded the Authority a "Certificate of Achievement" for Excellence in Financial Reporting for its ACFR for the year ended June 30, 2023. This was the twenty-third consecutive year that the Authority has achieved this prestigious award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. The ACFR must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements and will submit this 2024 ACFR to the GFOA for consideration.

Letter of Transmittal

Acknowledgements

The preparation of this report would not be possible without the cooperation of the Authority's Board of Commissioners and executive and senior management and their desire to maintain the Authority as a model of excellence in the management of Nashville International Airport, John C. Tune Airport, and MNAA Properties Corporation, to meet the air service needs to the surrounding communities.

Respectfully submitted,

Margaret Basrai, CPA, CGMA, C.M.

Financial Statements

Independent Auditor's Report

To the Board of Commissioners
Metropolitan Nashville Airport Authority

Report on the Audits of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities and the aggregate remaining funds of the Metropolitan Nashville Airport Authority (the "Authority"), a component unit of the Metropolitan Government of Nashville and Davidson County, Tennessee, as of and for the years ended June 30, 2024 and 2023 and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities and the aggregate remaining funds of the Authority as of June 30, 2024 and 2023 and the changes in its financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Board of Commissioners
Metropolitan Nashville Airport Authority

In performing audits in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The supplementary information, as identified in the table of contents; the schedule of expenditures of federal and state awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"), and the Audit Manual issued by the Tennessee Comptroller of the Treasury, respectively; and the schedule of collections and expenditures of passenger facility charges required by the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration, and the requirements in 14 CFR 158.63 (collectively, the "Guide") are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information, the schedule of expenditures of federal and state awards, and the schedule of collections and expenditures of passenger facility charges are fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Board of Commissioners
Metropolitan Nashville Airport Authority

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory section, statistical section schedules, and annual disclosure report but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audits of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements or whether the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 11, 2024 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

October 11, 2024

Metropolitan Nashville Airport Authority Management's Discussion and Analysis (Unaudited)

The following discussion and analysis provide an overview of the financial performance and activities of the Metropolitan Nashville Airport Authority (the "Authority") as of and for the years ended June 30, 2024 and 2023. It has been prepared by the Authority's management and should be read in conjunction with the basic financial statements and notes thereto, which follow this section.

The Authority is a business-type entity and, as such, the basic financial statements consist of three statements and notes to the basic financial statements. The three basic statements are: (a) Statement of Net Position, which presents the assets, liabilities, deferred inflows and outflows of resources and net position of the Authority as of the end of the fiscal period; (b) Statement of Revenues, Expenses, and Changes in Net Position, which reflects revenues and expenses recognized during the fiscal period; and (c) Statement of Cash Flows, which provides information on all cash inflows and outflows for the Authority by major category during the fiscal period. The Authority includes Fiduciary Funds to account for other postemployment benefit and pension trust funds as well as unadjudicated custodial funds.

The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") as promulgated by the Governmental Accounting Standards Board (GASB).

The financial statements include the operations of Nashville International Airport ("BNA"), John C. Tune Airport ("JWN") and MNA Properties Corporation ("MPC").

The Airport Funding Methodology

Funding for BNA's operations is predicated upon the stipulations in the Authority's Signatory Airline Use and Lease Agreement (the "Airline Agreement") between the Authority and the airlines. When an airline signs an agreement, it is designated a "Signatory Airline". The Airline Agreement also determines the budget and financing methodology which the Authority and airlines agree to follow. Airport budget methodologies throughout the United States are usually characterized as either compensatory or residual, although some airports have a hybrid methodology, which combines both features.

The Authority operates under a hybrid methodology. Airport revenues are retained by the Authority to be applied in accordance with the provisions in the Senior Bond Resolution and the Subordinate Bond Resolution, to fund capital improvements, establish certain reserve funds, and provide funds for other discretionary purposes. Any excess net revenues remaining after making all required deposits to the funds and accounts established under the Senior Bond Resolution and the Subordinate Bond Resolution are accumulated in the Nashville Airport Experience (NAE) fund and may be applied to any lawful purpose of the Authority, including funding of capital improvements.

The Authority created five airline cost centers for the purpose of accounting for and allocating costs and revenues at the airport to establish rates and charges for use of the airfield, the terminal, the terminal ramp area, baggage handling system and passenger boarding bridges. In addition to the five airline cost centers, the Authority also allocates costs and revenues to three Authority cost centers (parking and ground transportation, other buildings and areas, and the reliever airport) and one indirect cost center (general administration and overhead). A percentage of the Authority's indirect cost center is allocated to the direct airline cost centers, calculated by all airline and other cost centers. As described below, rate-setting at the airport is "hybrid". Landing fees are calculated using a residual methodology, the terminal rental rates are calculated using a commercial compensatory methodology, and other rates are calculated using a compensatory methodology. In the airfield cost center, the airlines have the primary responsibility, risk, and benefit from non-airline revenues. In the four other airline cost centers, the Authority and airlines share the responsibility, risk, and benefits.

More detailed information regarding the Airline Agreement can be found in Note 9 in the Notes to the Financial Statements.

Metropolitan Nashville Airport Authority Management's Discussion and Analysis (Unaudited)

Airport Activity Highlights

Nashville International Airport completed a record-breaking year in fiscal year 2024 with 11.8 million enplanements, an 8% increase from the 10.9 million enplanements recorded in fiscal year 2023. Currently, Nashville International Airport averages 660 daily airline arrivals and departures to 98 nonstop destinations.

Construction on the Authority's extensive, multi-phased capital improvement program known as the *BNA Vision*, was completed in fiscal year 2024. The *BNA Vision* capital program expanded the infrastructure at BNA to support Nashville's growth trajectory. Improvements include expanded parking, new concourse and lobby areas, new gates, a state-of-the-art international arrivals facility, an on-site hotel, additional federal security lanes, a free-standing satellite concourse, runway expansion (design and property acquisition), and more.

New Horizon I is the current capital improvement program and includes expansion of concourses A and D, including additional gates, moving walkways, and new concessions; terminal roadway improvements to ease traffic flow into and out of the airport terminal and parking garages; upgrades to the baggage handling system which will ultimately deliver passenger luggage to and from aircraft faster; and an expanded central ramp to provide necessary overnight aircraft parking positions and deicing areas. The *New Horizon* design phase began in fiscal year 2022, and all projects are expected to be complete in late 2028. The program is expected to cost \$1.62 billion.

In September 2023, Nashville International Airport unveiled the new International Arrivals Facility (IAF) and BNA Marketplace. The IAF includes six new gates and facilities designed to meet the demands of current and future domestic and international travel, as well as a new Customs and Border Protection zone to streamline immigration and Customs processes. The BNA Marketplace includes 15 new dining, retail, and service amenities.

Nashville International Airport's first free-standing satellite concourse opened to passengers in October 2023. The satellite concourse was built to accommodate the growth at the airport and features eight new gates and several concession options.

In March 2024, Nashville International Airport debuted its 14-story, 298-room on-site hotel, located adjacent to the terminal and connected to the terminal by a covered pedestrian bridge. The hotel includes dining options, event spaces, and a rooftop bar and pool area with panoramic views of the airfield and city. The hotel is owned by Nashville Airport Hotel Partners, LLC and subject to a lease with the Airport Authority. More detailed information on this public-private partnership can be found in Note 18 in the Notes to the Financial Statements.

John C. Tune Airport completed its north development project which incorporated airside and landside infrastructure, as well as site preparation, to support the new construction of corporate hangars. The project also expanded the existing R3 apron. The north development area was divided into 10 parcels for private development, all of which are currently leased by tenants.

The business development organization of the Authority, MPC, continued in 2024 with an occupancy level near 100%.

**Metropolitan Nashville Airport Authority
Management's Discussion and Analysis (Unaudited)**

Statement of Net Position

The Statement of Net Position depicts the Authority's financial position as of June 30 and includes all assets, liabilities, deferred inflows and outflows of resources, and the resulting net position. Assets and liabilities are generally measured using current values. One exception is capital assets, which are stated at historical cost less an allowance for depreciation. The condensed summary of the Authority's financial position as of June 30, 2024, 2023, and 2022 is as follows:

	<u>2024</u> <u>(000s)</u>	<u>2023</u> <u>(000s)</u>	<u>2022</u> <u>(000s)</u>
ASSETS			
Current unrestricted assets	\$ 848,404	\$ 671,819	\$ 500,010
Restricted assets	438,369	628,432	335,374
Capital assets, net	1,997,633	1,840,271	1,612,428
Other assets	153,366	143,355	104,593
Total assets	<u>3,437,772</u>	<u>3,283,877</u>	<u>2,552,405</u>
DEFERRED OUTFLOWS	<u>1,452</u>	<u>5,787</u>	<u>10,636</u>
LIABILITIES			
Current liabilities	\$ 83,488	\$ 81,743	\$ 85,057
Noncurrent liabilities	<u>2,014,093</u>	<u>2,020,077</u>	<u>1,472,403</u>
Total liabilities	2,097,581	2,101,820	1,557,460
DEFERRED INFLOWS	140,967	130,777	107,154
NET POSITION			
Net investment in capital assets	261,220	278,592	363,710
Restricted	494,457	469,822	342,088
Unrestricted	<u>444,999</u>	<u>308,653</u>	<u>192,629</u>
Total net position	<u>\$ 1,200,676</u>	<u>\$ 1,057,067</u>	<u>\$ 898,427</u>

Current unrestricted assets primarily consist of cash and investments, accounts receivable, short-term lease receivable, and amounts due from other governmental agencies. Between 2024 and 2023, current unrestricted assets increased by \$176.6 million, due to increases in unrestricted cash and investments (\$160.2 million) and amounts due from governmental agencies (\$17.9 million). The increase of \$176.6 million in unrestricted cash and investments is primarily the result of net cash provided by operating activities of \$132.9 million, and noncapital COVID-19 relief grant receipts of \$32.8 million. The amounts due from governmental agencies increased by \$17.9 million due to grant draws submitted but not received for the D concourse extension and Taxiway Bravo/Kilo intersection projects. Between 2023 and 2022, current unrestricted assets increased by \$171.8 million. This is attributed to an increase in unrestricted cash and investments (\$162.0 million) and an increase in accounts receivable (\$7.8 million). The increase of \$162.0 million in unrestricted cash and investments is primarily the result of net cash provided by operating activities of \$108.9 million, and noncapital COVID-19 relief grant receipts of \$28.7 million. The increase in accounts receivable of \$7.8 million is due to the increase in operations (i.e., landed weights, concessions, etc.) during fiscal year 2023, as well as an insurance settlement receivable of \$4.6 million.

Metropolitan Nashville Airport Authority Management's Discussion and Analysis (Unaudited)

Restricted assets consist of cash and investments and accounts receivable which are primarily restricted for debt service and bonded construction. Restricted assets decreased by \$190.1 million between 2023 and 2024 due to spending airport revenue bond proceeds on *BNA Vision* and *New Horizon* capital projects. Restricted assets increased by \$293.7 million between 2022 and 2023, due to capital contributions from governmental agencies and bond proceeds received and offset by spending the proceeds on purchases of property and equipment.

Net capital assets increased by \$157.4 million in 2024 from 2023 due to the completion of the international arrivals facility and satellite concourse, and ongoing construction for D concourse extension, terminal area roadway improvements, A concourse site preparation and expansion, and Taxiway Bravo/Kilo intersection reconstruction. Net capital assets increased by \$227.8 million in 2023 from 2022 due to the completion of the Grand Lobby and Garage B, and ongoing construction of the international arrivals facility, satellite concourse, and terminal area roadway improvements. For more detailed capital asset information, see Note 4 in the Notes to the Financial Statements.

Other assets consist primarily of long-term accounts receivable, lease receivable, prepaid expenses and deposits, net other post-employment benefits (OPEB) assets and net pension assets. In fiscal year 2024, other assets increased by \$10.0 million, due to the increase in the lease receivable of \$3.7 million, and the increase in the net OPEB asset of \$5.4 million. The lease receivable increased as certain non-regulated leases – such as the lease for the on-site hotel – began during the fiscal year. The OPEB asset changed as more favorable market conditions increased the value of OPEB trust assets. In fiscal year 2023, other assets increased by \$38.8 million, due to the increase in the lease receivable of \$30.8 million, and the increase in the net OPEB asset of \$8.0 million. The lease receivable increased as certain large non-regulated leases – such as airport lounge leases – expired with the former Airline Agreement at June 30, 2023; the new lease term commenced July 1, 2023, along with the new Airline Agreement. Therefore, new and un-amortized lease receivables for such properties were recorded at June 30, 2023. The OPEB asset changed as more favorable market conditions increased the value of OPEB trust assets.

Deferred outflows of resources represent the consumption of net assets in one period that is applicable to future periods. They are reported separately from assets and consist of deferred amounts on debt refunding.

Current liabilities include accounts payable, payroll-related liabilities, accrued paid time off, and security/performance deposits. Current liabilities remained consistent, increasing by \$1.7 million in 2024 and decreasing by \$3.3 million in 2023. Accrued payroll increased by \$1.1 million in 2024, and \$1.9 million in 2023, due to the addition of staff and increased employee pay during both years. Accounts payable decreased minimally in 2024. Accounts payable decreased by \$5.8 million in 2023, due to the timing of operating invoice payments.

Noncurrent liabilities contain long-term debt and the net pension liability. Long-term liabilities decreased by \$6.0 million in 2024. This was caused by a decrease in accrued interest payable of \$2.3 million as the Authority paid debt principal and did not issue new bonds. Additionally, the net pension liability decreased by \$3.3 million due to favorable market conditions during the year. Long-term liabilities increased by \$547.7 million in 2023. The increase resulted from issuing \$596.1 million in new bonds, additional bond premiums of \$33.6 million from said bond issue, and new borrowings of \$65.2 million on the BNA Credit Facility. The increase in debt due to borrowing was offset by principal repayments totaling \$8.7 million on bonds and notes payable, and \$147.9 million for the BNA Credit Facility. For more detailed long-term debt information, see Note 5 in the Notes to the Financial Statements.

Deferred inflows of resources represent an acquisition of net assets that is applicable to future periods. They are recorded separately from liabilities and consist of deferred inflows related to long-term leases, pension, and OPEB.

**Metropolitan Nashville Airport Authority
Management's Discussion and Analysis (Unaudited)**

Summary of Operations and Changes in Net Position

The Statement of Revenues, Expenses and Changes in Net Position presents the operating results of the Authority, as well as the nonoperating revenue and expenses. Operating revenues include both airline and non-airline revenues and consist primarily of landing and related fees, terminal building rentals and fees, parking fees, concession fees, and car rental revenues. Nonoperating revenues consist primarily of passenger facility charges (PFC), federal and state grants, customer facility charges (CFC) and interest income. Interest expense is the most significant nonoperating expense. A summarized comparison of the Authority's revenues, expenses, and changes in net position for the years ended June 30, 2024, 2023, and 2022 follows:

	<u>2024</u> <u>(000s)</u>	<u>2023</u> <u>(000s)</u>	<u>2022</u> <u>(000s)</u>
Operating revenues:			
Signatory airline	\$ 94,966	\$ 59,744	\$ 54,396
Parking	107,040	97,047	76,135
Concession	70,475	59,689	50,156
Space rental	21,362	27,403	20,142
Other	8,771	10,719	9,400
Operating revenues	<u>302,614</u>	<u>254,602</u>	<u>210,229</u>
Operating expenses:			
Salaries, wages, and fringe benefits	49,830	39,212	37,663
Contractual services	80,018	62,259	51,660
Materials and supplies	9,432	6,631	4,858
Utilities	8,779	8,662	7,002
Insurance	5,319	3,482	2,148
Other	5,662	5,620	9,634
Depreciation	117,554	85,872	79,274
Operating expenses	<u>276,594</u>	<u>211,738</u>	<u>192,239</u>
Operating income	26,020	42,864	17,990
Nonoperating revenues (expenses):			
Investment income (loss)	62,088	31,041	(4,756)
Passenger facility charges	44,734	41,532	35,678
Customer facility charges	17,284	15,494	12,939
Federal and state grants	34,830	29,255	26,494
Insurance reimbursement	669	6,215	1,851
Gain on disposal of property and equipment	3,696	3,801	67
Interest expense	(79,527)	(67,906)	(50,107)
Debt issuance costs	(8)	(2,639)	(62)
	<u>83,766</u>	<u>56,793</u>	<u>22,104</u>
Income before capital contributions	109,786	99,657	40,094
Capital contributions	<u>33,823</u>	<u>58,983</u>	<u>29,763</u>
Increase in net position	143,609	158,640	69,857
Total net position - beginning of year	<u>1,057,067</u>	<u>898,427</u>	<u>828,570</u>
Total net position - end of year	<u>\$ 1,200,676</u>	<u>\$ 1,057,067</u>	<u>\$ 898,427</u>

Operating Revenues

The chart below illustrates the sources of total operating revenue for the year ended June 30, 2024:

Operating revenues increased in fiscal year 2024 from 2023 by \$48.0 million, and by \$44.4 million in fiscal year 2023 from 2022.

Signatory airline revenue consists of ramp rent, terminal rent, baggage fees, and landing fees, and are offset by in-terminal concession credits. Signatory airline revenue increased in 2024 from 2023 by \$35.2 million, due to increases in terminal rental rates, baggage fees, and landing fees. In accordance with the new signatory use and lease agreement, rolling debt service is now incorporated in all rate calculations for airline cost centers. Consequently, terminal rental rates were raised from \$116.55 per square foot in 2023 to \$173.37 per square foot in 2024. BNA opened the satellite concourse (featuring eight gates) and the international arrivals facility (featuring six gates). Rentable baggage claim space increased by approximately 19,400 square feet during 2024. The increased rentable space combined with the fee increases resulted in a terminal rental revenue increase of \$9.9 million, and a baggage claim revenue increase of \$4.9 million. The landing fee increased from \$2.06 to \$3.50 (per 1,000 pounds of gross landed weight) from 2023 to 2024; this fee increase, along with an 8% increase in enplanements, led to a landing revenue increase of \$21.0 million in 2024. Signatory airline revenue increased in 2023 from 2022 by \$5.3 million, due to increases in terminal rental rates, and an increase in landing fees. In accordance with the signatory use and lease agreement in place at the time, terminal rental rates were raised from \$111.00 per square foot in 2022 to \$116.55 per square foot in 2023, resulting in a terminal rental revenue increase of \$2.2 million. In addition, the landing fee increased from \$2.04 to \$2.06 (per 1,000 pounds of gross landed weight) from 2022 to 2023. The increase in the landing fee, plus increased flight operations, led to increased signatory landing fees of \$4.0 million. The increases in terminal rental rates and landing fees were

**Metropolitan Nashville Airport Authority
Management's Discussion and Analysis (Unaudited)**

offset by a reduction in baggage fees charged to the signatory airlines. For more detailed Airline Use and Lease Agreement information, see Note 9 in the Notes to the Financial Statements.

Parking revenue increased in 2024 from 2023 by \$10.0 million due to receiving a full year's revenue from a new parking garage which opened in the final quarter of fiscal year 2023, the continued increase in passenger volume at BNA, and increased parking rates effective in December 2023. Parking revenue increased in 2023 from 2022 by \$20.9 million due to the continued increase in passenger volume at BNA, the opening of the additional parking garage in April 2023, and increased parking rates in March 2023.

Concessions revenue consists of the food/beverage concessions, retail concessions, rental car revenue, and ground transportation (including Transportation Network Companies). Concessions revenue increased from 2023 to 2024 by \$10.8 million, due to increased passenger volume, as well as the addition of new dining and retail concepts in the satellite concourse, the international arrivals facility, and throughout other pre-existing terminal areas. During 2024, in-terminal concessions increased by \$5.9 million, parking decal revenue by \$1.9 million, rental car revenue by \$1.0 million, and ground transportation revenue by \$1.5 million. Concessions revenue increased from 2022 to 2023 by \$9.5 million, due to increased passenger volume, as well as the addition of 18 new retail concepts. For 2023 as compared to 2022, in-terminal concessions increased by \$1.3 million, rental car revenue by \$4.0 million, and ground transportation revenue by \$3.9 million.

Space rental revenue decreased from 2023 to 2024 by \$6.0 million. Adjustments pertaining to certain lease accounting requirements reduced revenue by \$5.8 million. These reductions were offset by new revenue from the onsite hotel, and from renting additional office space and lay-down yard space to airlines. Space rental revenue increased from 2022 to 2023 by \$7.3 million due to increased rental rates for non-airline tenants. For more detailed lease accounting information, see Note 16 in the Notes to the Financial Statements.

Other revenue includes non-signatory landing fees, miscellaneous income, reimbursable services, and any additional revenue not included in the four main categories listed above. Other revenue decreased nominally in fiscal year 2024 (\$1.9 million) and increased nominally in 2023 (\$1.3 million).

Operating Expenses

The chart below illustrates the sources of total operating expenses for the year ended June 30, 2024:

Total operating expenses increased by \$64.9 million between 2023 and 2024. Salaries increased by \$10.6 million as the Authority added a total of 88 employees from June 30, 2023 to June 30, 2024. Employees were also granted cost-of-living adjustments in fiscal year 2024. Contractual services increased by \$17.8 million, materials and supplies increased by \$2.8 million, and insurance increased by \$1.8 million. These increases are attributable to the increase in passenger volume during the year, as well as the added square footage of the satellite concourse and international arrivals facility. The satellite concourse requires additional contracted shuttle bus service, and both new facilities require additional contracted janitorial and security services, and additional insurance. Total operating expenses increased by \$19.5 million between 2022 and 2023. Salaries increased by \$1.5 million as the Authority continued to fill vacant positions and granted cost-of-living adjustments. Contractual services increased by \$10.6 million, materials and supplies increased by \$1.8 million, utilities increased by \$1.7 million, and insurance increased by \$1.3 million. These increases were attributable to the addition of square footage in the new terminal lobby and Garage B, as well as the increase in passenger volume during the year. Due to the vigorous growth between fiscal years 2022 and 2023, and 2023 and 2024, the airport incurred more expenses to maintain cleanliness, comfort, safety and security for all passengers.

**Metropolitan Nashville Airport Authority
Management's Discussion and Analysis (Unaudited)**

Nonoperating, Revenues, Expenses, and Contributed Capital

Nonoperating revenues include investment income, passenger facility charges, customer facility charges, noncapital federal and state grants, gain on disposal of property and equipment, and insurance reimbursements. Nonoperating revenues increased by \$36.0 million from fiscal year 2023 to fiscal year 2024. Investment income increased by \$31.0 million due to favorable market conditions in 2024; additionally, the Authority earned interest on a full year of the bond funds invested after the November 2022 issuance. Passenger facility charges increased by \$3.2 million, and customer facility charges increased by \$1.8 million, both a direct result of more passengers traveling in 2024. Federal and state grant revenue increased by \$5.6 million as the Authority drew on its COVID-19 relief grants to offset its increasing debt service requirements. Insurance reimbursements decreased by \$5.5 million in fiscal year 2024 after climaxing in fiscal year 2023 due to proceeds received for (1) the tornado which occurred at JWN in 2020, and (2) an incident occurring in 2019 in which the Colonial Pipeline was damaged on BNA property. Nonoperating revenue increased by \$55.1 million from fiscal year 2022 to fiscal year 2023. Investment income increased by \$35.8 million due to the increase in funds invested after the November 2022 debt issuance, and more favorable market conditions in 2023. Passenger facility charges increased by \$5.9 million, and customer facility charges increased by \$2.6 million, both a direct result of more passengers traveling in fiscal year 2023. The Authority also recorded a receivable in fiscal year 2023 for an insurance settlement in the amount of \$4.6 million related to the aforementioned tornado.

Nonoperating expenses include interest expense and debt issuance costs. Nonoperating expenses increased by \$9.0 million from fiscal year 2023 to fiscal year 2024. Interest expense increased by \$11.6 million due to paying a full year of interest on bonds issued midway through fiscal year 2023, offset by a decrease in debt issuance costs of \$2.6 million. Nonoperating expenses increased by \$20.4 million from fiscal year 2022 to fiscal year 2023. Interest expense increased by \$17.8 million, and bond issuance costs increased by \$2.6 million; both were directly related to the bonds issued midway through fiscal year 2023.

Capital contributions decreased between 2023 and 2024 by \$25.1 million, after increasing by \$29.2 between 2022 and 2023. The Authority received a \$33.1 million grant to construct the satellite concourse, which was completed in October 2023. All revenues related to the grant were recognized in fiscal year 2023.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

1. Metropolitan Nashville Airport Authority

The creation of the Metropolitan Nashville Airport Authority (the “Authority”) was authorized by Public Chapter 174 of the Public Acts of the 86th General Assembly of the State of Tennessee, 1969 Session. The Metropolitan Council of the Metropolitan Government of Nashville and Davidson County, Tennessee (“Metropolitan Government”) created the Authority to operate as a separate enterprise. The Authority owns and operates Nashville International Airport and John C. Tune Airport, a general aviation reliever airport. Based upon the criteria set forth by the Governmental Accounting Standards Board (“GASB”), it has been determined that the Authority is a component unit of the Metropolitan Government.

The Authority’s Board of Commissioners consists of seven members who serve without compensation and are appointed by the Metropolitan Government Mayor and approved by the Metropolitan Government Council. There are provisions whereby commissioners may be removed by vote of the Metropolitan Government Council. Board members appointed before August 2021 serve a four-year term and can be reappointed. Board members appointed after August 2021 serve a seven-year term and can be reappointed. The terms are staggered to provide for continuity of Authority development and management. The Board of Commissioners appoints a President charged with the responsibility for day-to-day operations.

The Authority formed the MNAA Properties Corporation (“MPC”), a Tennessee non-profit corporation, for the purpose of supporting and facilitating the operations of the Authority and to help the economic development of the surrounding area. The Commissioners of the Authority constitute the Board of Directors of MPC. During fiscal year 2008, MPC Holdings, LLC, a limited liability company in which MPC is the sole member, purchased two separate multi-tenant buildings, and commenced operation. Both facilities are on Nashville International Airport property. In July 2012, MPC Holdings, LLC purchased a small commercial building adjoining Nashville International Airport.

In fiscal year 2010, the Board of Commissioners approved the formation of a Tennessee nonprofit limited liability company, MPC CONRAC, LLC. This entity was created in connection with the special facilities financing for the Authority’s consolidated rental car facility. MPC CONRAC, LLC is a single-member LLC, wholly owned by MPC. The formation of MPC CONRAC, LLC created an appropriate entity to execute various agreements and secure financing and services for the consolidated rental car (“CONRAC”) facility, which was completed in fiscal year 2012, and is located at Nashville International Airport.

MPC, including its subsidiaries MPC Holdings, LLC and MPC CONRAC, LLC, is considered to be a blended component unit for financial reporting purposes based on the following: (i) the Authority’s Board of Commissioners constitutes the Board of Directors of MPC; (ii) management of the Authority has operational responsibility for MPC; (iii) the Authority is financially accountable for MPC, including MPC’s fiscal dependence on the Authority and MPC’s potential to provide specific financial benefits or burden to the Authority; and (iv) MPC was created for the benefit of the Authority. The Authority does not issue separate financial statements for the blended component unit (see Note 19).

The accompanying financial statements also include the accounts of the Arts at the Airport Foundation, a nonprofit organization that facilitates the display and performance of artists within the Nashville International Airport terminal. The Arts at the Airport Foundation qualifies as a blended component unit of the Authority due to it being fiscally dependent on the Authority and due to the Authority’s appointment of the voting majority of its governing board. The financial operations of the Arts at the Airport Foundation are generally immaterial to the Authority’s financial statements and therefore not shown separately in the financial statements.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

1. Metropolitan Nashville Airport Authority (continued)

Fiduciary Activities

As defined by the GASB, the Authority reports the operations of the pension and other post-employment benefits (“OPEB”), as blended component units in the Fiduciary Fund Financial Statements. The pension and OPEB trust funds provide retirement and health benefits for qualified Authority retired employees. The pension and OPEB trust funds are legally separate entities, and the resources of the trust funds cannot be used to finance the Authority’s operations. The assets of the trust funds are held and administered in trust arrangements which are governed by a Retirement Committee (see Notes 12 and 13). The Authority is committed to making contributions to the trusts, and therefore assumes a financial burden for the trust funds and thus has financial accountability. As a result, the activity of the fiduciary funds is presented as a blended component unit. The assets in each trust are held only for the Authority retirees’ benefit.

The Authority also reports unadjudicated funds as a blended component unit in the Fiduciary Fund Financial Statements. The unadjudicated funds are comprised of cash that was seized from individuals suspected of crimes. These funds are deposited into a separate bank account in the Authority’s name. The funds are held by the Authority until the court issues a verdict. When a judgment is rendered, the funds are distributed to the individuals or the Authority accordingly.

2. Summary of Significant Accounting Policies

Measurement focus, basis of accounting, and basis of presentation

The financial statements of the Authority are presented using the economic resources measurement focus and the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when incurred. The financial statements include the operations of Nashville International Airport, John C. Tune Airport, and MPC, including MPC CONRAC, LLC, as discussed in Note 1. The Authority’s pension and other post-employment benefits trust funds are reported as component units in the Fiduciary Fund Financial Statements.

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with U.S. GAAP requires management to make assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the useful lives of capital assets, the allowance for doubtful accounts, valuation of net pension and OPEB liabilities or assets and the related deferred inflows and/or outflows, valuation of certain leases receivable and related deferred inflows, and certain self-insured liabilities. Actual results could differ from those estimates.

Budgets

The Authority prepares an annual operating budget and capital improvement budget and submits it for approval to the Board of Commissioners. A five-year capital improvement program, including modifications and reasons therefore, is also submitted each year.

The Authority is not required to demonstrate statutory compliance with its annual operating budget. Accordingly, budgetary data is not included in the basic financial statements. All budgets are prepared in accordance with bond covenants and airport use and lease agreements. Unexpended operating appropriations lapse at year-end.

2. Summary of Significant Accounting Policies (continued)

Employer contributions to the pension and OPEB trust funds are recognized when the employer has made formal commitments to provide the contribution. The contributions for each year are based on an actuarial valuation performed as of the year prior to the year for which the contribution relates. The contribution amount for any given year incorporates (1) the current and projected funded status of the funds; (2) recent investment performance, and the advice of the investment consultant; and (3) anticipated changes to the Plans' demographics to the extent reflected in the actuarial assumptions used by the actuary in its most recent actuarial valuation or projections.

Operating and nonoperating revenues and expenses

The Authority distinguishes operating revenues and operating expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the principal, ongoing operations such as space rental and fees, landing fees, parking, and other miscellaneous income. Transactions that are capital, financing, or investing related are reported as nonoperating revenues. Such nonoperating revenues include Passenger Facility Charges ("PFCs") as described in Note 6, Customer Facility Charges ("CFCs") as described in Note 7, and lease-related interest income as described in Note 16.

Expenses from employee wages and benefits, purchases of services, materials and supplies, and other miscellaneous expenses are reported as operating expenses. Interest expenses and financing costs are reported as nonoperating expenses.

Revenues are reported net of discounts and allowances. Bad debts are expensed using the allowance method. Bad debt expense was \$107,368 and \$165,321 for the years ended June 30, 2024 and 2023, respectively. The allowance for doubtful accounts was \$359,531 and \$333,075 at June 30, 2024 and 2023, respectively.

The Authority's operating revenues are presented in five components as follows:

Signatory airline

Signatory Airline revenue consists of the revenues earned from the signatory airlines operating at Nashville International Airport primarily for terminal space rentals and landing fees. The Airline Agreements have a "hybrid" airline rate-setting methodology with the landing fees being calculated on a residual basis, the terminal rental rates being compensatory, and terminal ramp area rates being compensatory. For more information regarding airline rates and charges, see Note 9.

Parking

Parking revenue is generated primarily from the operation of Authority-owned parking facilities at Nashville International Airport. This amount is presented net of discounts.

Concession

Concession revenue is generated through concessionaires and tenants who pay monthly fees for using airport facilities to offer their goods and services to the public. Payments to the Authority are based on negotiated agreements with concessionaires to remit amounts typically based either on a minimum guarantee or on a percentage of gross receipts.

Space rental

Space rental revenue includes non-signatory airline terminal space rental, car rental companies' space rental, and certain other income received from leases of Authority-owned property.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

2. Summary of Significant Accounting Policies (continued)

Other

Other revenue consists primarily of non-signatory airline landing fees, cargo airline landing fees, and the Authority's portion of fixed-based operators' fuel sales.

Cash and cash equivalents

Cash and cash equivalents include cash on hand and short-term investments with original maturities of three months or less. Certain cash and cash equivalents are reported as noncurrent, as these amounts are restricted to the withdrawal or use.

Investments

Investments are accounted for in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, which requires that certain investments be recorded at fair value (e.g., quoted market prices).

Amounts due from governmental agencies

The Authority has grants for aid in construction and equipment from the Federal Airport Improvement Program ("AIP") of the Federal Aviation Administration ("FAA"), the U.S. Department of Homeland Security ("DHS"), and the Tennessee Department of Transportation ("TDOT"). Amounts due from governmental agencies under the terms of grant agreements are accrued as the related reimbursable costs are incurred which is the point when the criteria for revenue recognition has been satisfied for these arrangements under GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*.

Restricted assets and payables from restricted assets

Restricted assets consist of cash and cash equivalents, investments, and other resources which are restricted legally or by enabling legislation. The Authority's restricted assets are to be used for purposes specified in the respective bond indentures or other authoritative or legal documents as is the case with the collection of CFCs for the consolidated rental car facility or for purposes specified by the PFC program, as administered by the FAA.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as needed. A summary of the restricted assets at June 30, 2024 and 2023 is as follows:

	<u>2024</u>	<u>2023</u>
Debt Service:		
Cash and investments	\$ 206,668,022	\$ 222,872,058
Accounts receivable	148,129	143,045
Total	<u>206,816,151</u>	<u>223,015,103</u>
Construction:		
Cash and investments	224,507,431	398,677,729
Total	<u>224,507,431</u>	<u>398,677,729</u>
Operations:		
Cash and investments	7,045,414	6,739,037
Total	<u>7,045,414</u>	<u>6,739,037</u>
Total restricted assets	<u>\$ 438,368,996</u>	<u>\$ 628,431,869</u>

2. Summary of Significant Accounting Policies (continued)

Capital assets

Capital assets are stated at cost, except for contributions of property received from governmental agencies, which are recorded at acquisition value at the time of contribution. The Authority's policy is to capitalize assets with a useful life greater than one year, and with a cost of \$25,000 or more at Nashville International Airport and \$10,000 at John C. Tune Airport and MPC.

Asset lives used in the calculation of depreciation are generally as follows:

Infrastructure	10 to 30 years
Buildings and building improvements	10 to 40 years
Equipment, furniture and fixtures	3 to 15 years
Information technology software	1 to 5 years

Routine maintenance and repairs are expensed as incurred. Provision for depreciation of property and equipment is made on a basis considered adequate to depreciate the cost of depreciable assets over their estimated useful lives and is computed using the straight-line method.

Postemployment benefits

Postemployment pension benefits are accounted for under GASB Statement No. 68, *Accounting and Financial Reporting for Pensions, an amendment to GASB Statement No. 27* ("GASB No. 68"), which establishes standards for the measurement, recognition, and display of pension expense and related liabilities, deferred inflows/outflows of resources, note disclosures, and required supplementary information. See additional information regarding the Authority's pension benefits in Note 12.

Postemployment benefits other than pension benefits are accounted for under GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions* ("GASB No. 75"), which establishes standards for the measurement, recognition, and display of postemployment benefits expense and related liabilities, assets, deferred inflows/outflows of resources, note disclosures, and required supplementary information. See additional information regarding the Authority's OPEB in Note 13.

Compensated absences

Compensated absences are accrued as payable when earned by employees and are cumulative from one fiscal year to the next. The compensated absences liability is reported with accrued payroll and related items in the accompanying statements of net position.

Self-insurance

The Authority is self-insured, up to certain limits, for employee group health insurance claims. The Authority has purchased reinsurance to limit its exposure. The cost of claims reported and an estimate of claims incurred but not reported are charged to operating expenses. Liabilities for unpaid claims are accrued based on management's estimate using historical experience and current trends and are included in accrued payroll and related items on the statements of net position. The appropriateness of the self-insurance accrued liabilities is continually reviewed and updated by management.

2. Summary of Significant Accounting Policies (continued)

Deferred outflows/Inflows of resources

The statements of net position will report a separate section for deferred outflows of resources and/or deferred inflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to future periods and, therefore, are not recognized as an outflow of resources (expense) until then. Deferred inflows of resources represent an acquisition of net assets that applies to future periods and, therefore, are not recognized as an inflow of resources (revenue) until then.

The Authority has several items that qualify for reporting as deferred outflows/inflows of resources. These items may include gains or losses on bond refundings; GASB No. 87, *Leases* ("GASB No. 87"), deferred inflow of resources related to leasing activities; GASB No. 68 deferred inflows and outflows from earnings on investments, changes in assumptions, changes in benefit terms, and other experience gains or losses related to the Authority's pension plan, and GASB No. 75 deferred inflows and outflows earnings on investments, changes in assumptions, changes in benefit terms, and other experience gains or losses relating to the Authority's OPEB plan.

A deferred loss on refunding results from the difference between the net carrying amount of the original debt and the reacquisition price, shown as a deferred outflow of resources in the accompanying statements of net position. This amount is deferred and amortized over the term of the new bonds or old bonds, whichever is shorter, using the effective interest method or the straight-line method, when not materially different.

GASB No. 87 establishes a deferred inflow, representing the present value of long-term lease payments expected to be received during a lease payment term, net of any prepayments received from lessees and lease incentives paid to lessees.

GASB No. 68 and GASB No. 75 variances can occur due to actuarial assumptions that differ between the actual plan experience and the original actuarial assumed rates. Differences can result from earnings on investments, changes in assumptions, changes in benefit terms, other experience gains or losses, and other factors. A variance represents a gain or a loss, shown as deferred inflows of resources or deferred outflows of resources, respectively, in the accompanying statements of net position. These deferred outflows/inflows are amortized in accordance with the provisions of GASB No. 68 and GASB No. 75. Additional items are determined annually based on each subsequent year's variances from actuarial assumptions.

Advanced billings and payments received in advance

Advanced billings and payments received in advance represent incremental amounts due to airlines under the signatory airline agreements (Note 9). Incremental amounts due from airlines are reflected in accounts receivable. Incremental amounts due to the airlines arise when amounts assessed, based on the estimated rates used during the year, exceed actual expenses for the year. Incremental amounts due from the airlines arise when amounts assessed, based on the estimated rates used during the year, are less than actual expenses for the year. Amounts due from or to airlines are typically settled in one to three months after period-end and are therefore recorded as a current asset or liability.

Long-term leases

Regulated leases

The Authority leases certain assets to various third parties as regulated leases. These leases are for assets related directly and substantially to the movement of passengers, baggage, mail, and cargo at the airport. Regulated lease revenue is recorded as it is earned over the life of the regulated leases.

2. Summary of Significant Accounting Policies (continued)

Non-regulated leases

The Authority leases certain assets to various third parties as non-regulated leases. As a lessor, the Authority is required to recognize a lease receivable and a deferred inflow of resources. The lease receivable is measured at the present value of lease payments expected to be received during the lease term. The deferred inflow of resources is equal to the lease receivable, less prepayments received from lessees, or lease incentives paid to lessees. As lease payments are received, the Authority recognizes interest revenue and a reduction to the lease receivable. The Authority also recognizes lease revenue calculated as the amortization of the deferred inflow of resources over the lease term. Additional information regarding lease accounting is provided in Note 16.

Components of net position

The Authority's net position classifications are defined as follows:

Net investment in capital assets

This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds (net of deferred amount on refunding), mortgages, notes, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Restricted net position

This component of net position represents restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law or through constitutional provisions or enabling legislation.

Unrestricted net position

This component of net position consists of net position that does not meet the definition of "net investment in capital assets" or "restricted net position".

Taxes

The Authority is exempt from payment of federal and state income, property, and certain other taxes.

Fair value measurements

Assets and liabilities recorded at fair value in the statements of net position are categorized based on the level of judgment associated with the inputs used to measure their fair value. Level inputs are as follows:

- Level 1** - Values are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.
- Level 2** - Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

2. Summary of Significant Accounting Policies (continued)

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Authority's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

Change in presentation

The Authority has made certain reclassifications to the 2023 financial statements to conform with the presentation of the 2024 financial statements.

Upcoming accounting pronouncements

In June 2022, the Governmental Accounting Standards Board issued GASB Statement No. 101, *Compensated Absences*, which updates the recognition and measurement guidance for compensated absences under a unified model. This statement requires that liabilities for compensated absences be recognized for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means and establishes guidance for measuring a liability for leave that has not been used. It also updates disclosure requirements for compensated absences. The provisions of this statement are effective for the Authority's financial statements for the year ending June 30, 2025.

In December 2023, the Government Accounting Standards Board issued Statement No. 102, *Certain Risk Disclosures*, which requires governments to assess whether a concentration or constraint makes the government vulnerable to the risk of a substantial impact. It also requires governments to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within twelve months of the date of the financial statements are issued. If certain criteria are met for a concentration or constraint, disclosures are required in the notes to the financial statements. The provisions of this statement are effective for the Authority's financial statements for the year ending June 30, 2025.

In April 2024, the Government Accounting Standards Board issued Statement No. 103, *Financial Reporting Model Improvements*, which improves key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision-making and assessing a government's accountability. The standard requires certain changes to the presentation of unusual or infrequent items, presentation of the proprietary fund statement of revenues, expenses, and changes in net position, major component unit information, budgetary comparison information, and management's discussion and analysis. The provisions of this statement are effective for the Authority's financial statements for the year ending June 30, 2026.

3. Cash and Cash Equivalents and Investments

The Authority's deposit and investment policy is governed by the laws of the State of Tennessee and bond trust indentures and supplementary resolutions, which govern the investment of bond proceeds. Permissible investments generally include direct obligations of, or obligations guaranteed by, the U.S. Government, obligations issued or guaranteed by specific agencies of the U.S. Government, secured certificates of deposit, secured repurchase agreements, and specifically rated obligations of state governments, commercial paper, and money market funds.

Cash and cash equivalents

The Authority's unrestricted and restricted cash and cash equivalent bank balances totaled \$657,879,030 and \$519,741,989 on June 30, 2024 and 2023, respectively.

3. Cash and Cash Equivalents and Investments (continued)

Cash deposits, maintained at four financial institutions, are carried at cost plus interest, which approximates fair value. Cash deposits totaled \$66,840,144 and \$75,583,944 at June 30, 2024 and 2023, respectively. Cash deposits are required by State statute to be secured and collateralized by such institutions.

The amount of collateral required to secure public deposits for Collateral Pool participants ranges between 90% and 115% of the average daily balance of public deposits held, depending on the participant's status and compliance with certain benchmarks established by the Collateral Pool. Collateral securities pledged by the participating banks are pledged to the State Treasurer on behalf of the Collateral Pool. The securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency.

Under this additional assessment agreement, public fund accounts covered by the pool are considered insured for purposes of credit risk disclosure in accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures*.

Cash equivalents are held at another financial institution and consist of money market and other short-term investments with original maturities of three months or less. Investment risk for such cash equivalent funds is governed by the Authority's investment policy.

Investments

Interest rate risk

The Authority's investment policy states that the investment portfolio may be allocated among U.S. Treasury Obligations (0 - 100%), Government National Mortgage Association Securities (0 – 40%), U.S. Government Guaranteed AID and GTC (0 – 10%), Federal Agency Instruments (0 - 75%, 40% per agency cap for FMNA, FHLMC, FHLB, FFCB and 10% cap for all other Government Sponsored Enterprises), Non-Negotiable Collateralized Bank Deposits or Savings Accounts (0 – 50%), Commercial Paper (0 - 35%, 10% cap per issuer), Repurchase Agreements (0 - 20%), Money Market Mutual Funds (0 - 50%, 25% per fund), Tennessee Local Government Investment Pool (0 - 50%), and Cash Equivalents (0 - 100%). In addition, the maximum maturity of investments is 270 days for commercial paper, one year for repurchase agreements, two years for certificates of deposit, time deposits and bankers' acceptances, no time restriction on money market mutual funds or Tennessee Local Government Investment Pool, and 4 years for all other permitted investments. No more than 50% of the portfolio can have a maturity date greater than two (2.0) years. To control the volatility of the portfolio and limit exposure to interest rate risk, the Authority's Chief Financial Officer ("CFO") determines a duration target for the portfolio, which typically does not exceed 3 years.

Credit risk

The investment policy specifies acceptable credit ratings by instrument type; however, the investment policy requires all investments to be ranked in the Highest Fund Quality or Rating for its individual investment category.

On June 30, 2024, the credit quality ratings of investments (other than the U.S. agency issues) are as follows:

Investment	Fair Value	Rating	Organization
Primary Government:			
Commercial Paper	\$ 99,811,471	A1, P1	S&P, Moody's
Fiduciary Funds:			
Pooled, common and collective funds	\$ 9,696,219	AA	S&P, Moody's, Fitch
Pooled, common and collective funds	6,175,937	A	S&P, Moody's, Fitch
Pooled, common and collective funds	4,000,610	BBB	S&P, Moody's, Fitch
Mutual funds	13,714,638	BBB	S&P, Moody's, Fitch
Unrated investments	95,387,815		
Total Fiduciary Fund investments	<u>\$ 128,975,219</u>		

On June 30, 2023, the credit quality ratings of investments (other than the U.S. agency issues) are as follows:

Investment	Fair Value	Rating	Organization
Primary Government:			
Commercial Paper	\$ 188,465,197	A1, P1	S&P, Moody's
Fiduciary Funds:			
Pooled, common and collective funds	\$ 9,162,717	AA	S&P, Moody's, Fitch
Pooled, common and collective funds	5,681,748	A+	S&P, Moody's, Fitch
Pooled, common and collective funds	3,623,996	AA	S&P, Moody's, Fitch
Mutual funds	12,777,045	A+	S&P, Moody's, Fitch
Unrated investments	88,753,124		
Total Fiduciary Fund investments	<u>\$ 119,998,630</u>		

Custodial credit risk

All investment securities purchased by the Authority are held in third-party safekeeping at a financial institution, acting solely as agent of the Authority and qualified to act in this capacity. To limit custodial credit risk, all trades of marketable securities are executed based on delivery versus payment and avoid the physical delivery of securities (bearer form) to ensure that securities are deposited with a custodian prior to the release of Authority funds. The Authority's investments on June 30, 2024 and 2023 are collateralized by securities held by the Authority's agent in the Authority's name.

3. Cash and Cash Equivalents and Investments (continued)

Financial Instruments Reported at Fair Value

The Authority categorizes its fair value measurements within the fair value hierarchy established by U.S. Generally Accepted Accounting Principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Authority's assessment of the significance of inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The Authority has the following recurring fair value measurements as of June 30, 2024:

- U.S agency issues of \$537,283,050 are valued using quoted market prices (Level 1 inputs).
- Mutual funds of \$57,295,795 are valued using quoted market prices (Level 1 inputs).
- Commercial paper of \$99,811,471 are valued using quoted market prices and various market and industry inputs (Level 2 inputs).
- Pooled, common and collective funds of \$64,518,620 are valued on a recurring basis using net asset value per share (or its equivalent) of the investment companies as a practical expedient.
- Cash and cash equivalents include \$6,155,232 of money market funds valued using quoted market prices and various market and industry inputs (Level 2 inputs).

The Authority has the following recurring fair value measurements as of June 30, 2023:

- U.S agency issues of \$615,585,547 are valued using quoted market prices (Level 1 inputs).
- Mutual funds of \$52,840,356 are valued using quoted market prices (Level 1 inputs).
- Commercial paper of \$188,465,197 are valued using quoted market prices and various market and industry inputs (Level 2 inputs).
- Pooled, common and collective funds of \$61,337,507 are valued on a recurring basis using net asset value per share (or its equivalent) of the investment companies as a practical expedient.
- Cash and cash equivalents include \$4,915,188 of money market funds valued using quoted market prices and various market and industry inputs (Level 2 inputs).

Totals of \$256,262,257 and \$184,511,731 are invested in the Tennessee Local Government Investment Pool on June 30, 2024 and 2023, respectively. Totals of \$269,226,812 and \$195,068,815 are invested at Goldman Sachs on June 30, 2024 and 2023, respectively. These amounts are recorded at amortized cost in accordance with GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*, and are not included in the fair value disclosures above.

3. Cash and Cash Equivalents and Investments (continued)

Investments in Entities that Calculate Net Asset Value per Share

The Authority holds shares or interests in investment companies whereby the fair value of the investments is measured on a recurring basis using net asset value per share (or its equivalent) of the investment companies as a practical expedient.

At June 30, 2024, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

	<u>Carrying Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Collective investment trust funds	\$ 64,518,620	\$ -	Daily	Daily
Total	<u>\$ 64,518,620</u>	<u>\$ -</u>		

At June 30, 2023, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

	<u>Carrying Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Collective investment trust funds	\$ 61,337,507	\$ -	Daily	Daily
Total	<u>\$ 61,337,507</u>	<u>\$ -</u>		

The collective investment trust fund class includes 12 funds that invest in a broad range of investment vehicles:

- One fund invests in common stocks of large-cap companies.
- One fund invests in common stocks of companies located in developed countries outside the U.S.
- One fund invests in a diversified portfolio consisting primarily of high-quality bonds and other fixed income securities, including U.S. government obligations, mortgage- and asset-backed securities, corporate bonds, government-related securities, municipal bonds and collateralized mortgage obligations.
- One fund seeks to achieve long-term growth of capital in a large cap value equity style.
- One fund is invested in one or more underlying collective investment funds which seek to approximate the total return of the markets for international equity securities traded outside the United States.
- Two funds invest in investment-grade debt securities, including U.S. Government obligations, corporate bonds, and mortgage- and asset-backed securities.
- Two funds are invested in one or more underlying collective investment funds which seek to approximate the total return of the S&P 500 Index.
- Three funds invest in a diversified portfolio of fixed income securities.

5. Long-term Debt (continued)

The Revenue Bonds contain default provisions as defined in the agreements. In each case of default, unless cured by the Authority within 30 days after written notice, the trustee may declare all outstanding bonds and accrued interest immediately due and payable. Upon the event of default, the trustee may demand the Authority net revenues and all funds and accounts established under the General Resolution be transferred to and administered by the trustee. The trustee may exercise any of the following remedies to the extent they are legally available:

- (i) The trustee may protect and enforce its rights and the rights of the holders of the bonds by suit or suits of equity.
- (ii) The trustee may obtain the appointment of receiver, where the receiver may enter upon and take possession of the airport and fix rates and charges and collect all airport revenues. The receiver will collect and dispose of airport revenues in accordance with the terms and conditions of the General Resolution or as the court directs.

Net revenues (as defined in the various bond ordinances) of the Authority in the operation of the Airport System have been pledged toward the repayment of the Airport Revenue Bonds. Net revenues consist of operating revenues reduced by operating expenses, not including depreciation.

All Authority bonds were issued under the Airport Improvement Revenue Bond Resolution adopted by the Board of Commissioners of the Authority on August 15, 1991, (as amended and supplemented, the "General Resolution") and a nineteenth Supplemental Resolution adopted by the Board on October 21, 2015. In 2019, the Board approved the 2019 Master Subordinate Resolution and the First Supplemental Resolution. Bonds issued under the First Supplemental Resolution payable from net revenues are subordinate to bonds issued under the General Resolution. The Authority anticipates using PFC funds for approximately \$4.4 million and \$8.4 million of the Series 2015A and Series 2015B bonds, respectively, and approximately \$495 million of the Series 2019B and Series 2022B bonds (Note 6). Although the CONRAC Series 2018 Bonds were issued under the General Resolution, the CFCs are not in and of themselves a part of airport revenues or net revenues as defined in the General Resolution. Therefore, airport revenues derived by the Authority from the operation of the Airport are not pledged for payment of and do not constitute security for the CONRAC Series 2018 Bonds. All other bonds are secured by a pledge of and lien on net revenues derived by the Authority from the operation of the airports.

Net revenues (as defined in the various bond ordinances) of the Authority in the operation of the Airport System have been pledged toward the repayment of the Airport Revenue Bonds. For the years ended June 30, 2024 and 2023, net revenues were \$143,574,217 and \$128,736,526, respectively, compared to the net debt service (principal and interest) for senior and subordinate revenue bonds of \$96,529,702 and \$62,970,022, respectively. In addition, a portion of the Airport Revenue Bonds has been approved by the FAA to be funded by Passenger Facility Charges. For the years ended June 30, 2024 and 2023, the PFC revenues were \$44,734,128 and \$41,531,943, respectively, compared to the net debt service (principal and interest) of \$21,504,899 and \$688,478 for each aforementioned year.

Net CONRAC revenues have been pledged toward the repayment of the CONRAC Series 2018 Refunding Revenue Bonds. For the years ended June 30, 2024 and 2023, the CONRAC revenues were \$17,283,641 and \$15,494,211, respectively, compared to the net debt service (principal and interest) of \$3,915,169 and \$3,917,045, respectively.

Direct Placement Debt:

Special facility revenue bond (MPC CONRAC LLC Project) Refunding Series 2018 bonds

During May 2018, the Authority issued CONRAC Refunding Series 2018 bonds in the principal amount of \$27,358,295. The bonds, together with \$23,334,428 available Customer Facility Charge ("CFC") revenues

5. Long-term Debt (continued)

were placed in an irrevocable trust to advance refund the Series 2010 Bonds maturing in the years 2021 through 2029 and pay the costs of issuance of the bond of \$150,858. Accordingly, the trust account assets and the liability on the defeased bonds are not included in the Authority's financial statements. At June 30, 2024, \$35,565,000 of defeased bonds remain outstanding. The difference between the reacquisition price and the net carrying amount of the refunded debt was \$3,614,352. This difference is reported as a deferred outflow of resources and is being amortized through fiscal year 2029. The refunding resulted in an economic gain of approximately \$6,400,000.

The CONRAC Refunding Series 2018 bonds are payable from and secured by a pledge of certain rental payments derived from CFCs under leases with rental car agencies (Note 7). The remaining CONRAC Refunding Series 2018 bonds contain serial bonds at an interest rate of 3.4%, maturing in progressive annual amounts ranging from \$3,240,774 on July 1, 2023, to \$3,838,790 on July 1, 2028.

Geothermal loan

In July 2015, the Authority entered into an equipment lease purchase agreement in the amount of \$4,300,000 with a financial institution providing for the equipment to be installed in the geothermal project. The annual interest rate is 2.78%. Principal payments are due annually beginning July 2017; interest payments are due semi-annually beginning January 2016. The final principal and interest payment are due in July 2030. The principal balance outstanding was \$2,288,911 and \$2,592,385 at June 30, 2024 and 2023, respectively.

Other Debt:

Airport improvement revenue bonds, Series 2003B

During November 2003, the Authority issued Series 2003B taxable bonds in the principal amount of \$19,585,000. These bonds were issued to provide funding for a portion of the projected unfunded liability of the Metropolitan Nashville Airport Authority Retirement Plan for Employees (See Note 12).

The remaining Series 2003B bonds contain serial bonds at interest rates ranging from 5.49% to 5.94%, with annual sinking fund requirements in progressive annual amounts ranging from \$720,000 on July 1, 2023, to \$1,280,000 on July 1, 2033. The annual amounts accumulated in the sinking fund will be used to pay bond holders on July 1, 2023, and 2033. The 2003B bonds are subject to an extraordinary optional redemption, in whole at any time, at a redemption price equal to the principal amount plus accrued interest to the date of redemption only in the event of the destruction or damage to all or substantially all of the Nashville International Airport or the condemnation of the airport facility.

Airport improvement revenue bonds, Series 2015A&B

During December 2015, the Authority issued Series 2015A bonds in the principal amount of \$91,855,000 and Series 2015B in the principal amount of \$108,145,000, collectively the "Series 2015A&B bonds". The Series 2015A&B bonds were issued to finance certain capital improvement at Nashville International Airport and John C. Tune Airport, fund capitalized interest on the Series 2015A&B bonds, make deposits to the reserve accounts in the Airport Improvement Bond Reserve Fund, and pay certain costs of their issuance. The bonds were issued at a premium of \$13,825,131 and \$13,078,625 for 2015A and 2015B, respectively. This amount is being amortized through 2045.

Interest on the Series 2015A&B bonds is payable on each January 1 and July 1, commencing July 1, 2016.

The Series 2015A bonds contain serial bonds at interest rates ranging from 4% to 5%, maturing in amounts ranging from \$2,085,000 on July 1, 2023, to \$3,575,000 on July 1, 2035. \$20,730,000 of term bonds at 5% are due on July 1, 2040, and \$26,460,000 of term bonds at 5% are due on July 1, 2045.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

5. Long-term Debt (continued)

The Series 2015B bonds contain serial bonds at interest rates ranging from 4% to 5%, maturing in amounts ranging from \$2,515,000 on July 1, 2023, to \$4,475,000 on July 1, 2035. \$23,525,000 of term bonds at 5% are due on July 1, 2040, \$17,130,000 of term bonds at 5% are due on July 1, 2043, and \$12,825,000 of term bonds at 3.875% are due on July 1, 2045.

The Series 2015A&B bonds maturing on and after July 1, 2026, are subject to redemption prior to maturity, at the option of the Authority, at a redemption price equal to the principal amount plus interest to the date of redemption. The first optional call date is July 1, 2025.

Subordinate airport improvement revenue bonds, Series 2019A&B

During December 2019, the Authority issued, under the First Supplemental Resolution, Series 2019A bonds in the principal amount of \$254,435,000 and Series 2019B in the principal amount of \$665,150,000, collectively the "Series 2019A&B bonds". The Series 2019A&B bonds were issued to finance certain capital improvement at Nashville International Airport, fund capitalized interest on the Series 2019A&B Bonds, make deposits to the reserve accounts in the Airport Improvement Bond Reserve Fund, and pay certain costs of their issuance. The bonds were issued at a premium of \$56,925,475 and \$134,372,678 for 2019A and 2019B, respectively. This amount is being amortized through 2054.

Interest on the Series 2019A&B bonds is payable on January 1 and July 1, commencing July 1, 2020.

The Series 2019A bonds contain serial bonds at interest rates ranging from 4% to 5%, maturing in amounts ranging from \$2,965,000 on July 1, 2025, to \$6,530,000 on July 1, 2039. \$37,870,000 of term bonds at 5% are due on July 1, 2044, \$25,000,000 and \$39,200,000 of term bonds at 4% and 5%, respectively, are due on July 1, 2049, and \$25,000,000 and \$60,120,000 of term bonds at 4% and 5%, respectively, are due on July 1, 2054.

The Series 2019B bonds contain serial bonds at interest rates ranging from 4% to 5%, maturing in amounts ranging from \$7,920,000 on July 1, 2025, to \$17,260,000 on July 1, 2039. \$100,175,000 of term bonds at 5% are due on July 1, 2044, \$50,000,000 and \$116,170,000 of term bonds at 4% and 5%, respectively, are due on July 1, 2049, and \$62,500,000 and \$157,550,000 of term bonds at 4% and 5%, respectively, are due on July 1, 2054.

The Series 2019A&B bonds maturing on and after July 1, 2031, are subject to redemption prior to maturity, at the option of the Authority, on or after July 1, 2030, in whole or in part at any time, at a redemption price equal to the principal amount plus interest to the date of redemption.

Airport improvement revenue bonds, Series 2022A&B

During November 2022, the Authority issued Series 2022A bonds in the principal amount of \$94,525,000 and Series 2022B bonds in the principal amount of \$501,560,000, collectively the "Series 2022A&B bonds". The Series 2022A&B bonds were issued to finance certain capital improvement at Nashville International Airport, fund capitalized interest on the Series 2022A&B bonds, make deposits to the reserve accounts in the Airport Improvement Bond Reserve Fund, and pay certain costs of their issuance. The bonds were issued at a premium of \$7,122,713 and \$26,460,002 for 2022A and 2022B, respectively. This amount is being amortized through 2052.

Interest on the Series 2022A&B bonds is payable on each January 1 and July 1, commencing July 1, 2023.

The Series 2022A bonds contain serial bonds at interest rates ranging from 5% to 5.25%, maturing in amounts ranging from \$1,720,000 on July 1, 2026, to \$3,755,000 on July 1, 2042. \$21,905,000 of term bonds at 5.25% are due on July 1, 2047, and \$28,140,000 of term bonds at 5% are due on July 1, 2052.

5. Long-term Debt (continued)

The Series 2022B bonds contain serial bonds at interest rates ranging from 5% to 5.5%, maturing in amounts ranging from \$8,855,000 on July 1, 2026, to \$20,055,000 on July 1, 2042. \$117,515,000 of term bonds at 5.25% are due on July 1, 2047, \$127,285,000 of term bonds at 5.5% are due on July 1, 2052, and \$25,000,000 of term bonds at 5% are due on July 1, 2052.

The Series 2022A&B bonds maturing on and after July 1, 2033, are subject to redemption prior to maturity, at the option of the Authority, at a redemption price equal to the principal amount plus interest to the date of redemption. The first optional call date is July 1, 2032.

BNA credit facility loan agreement

On January 7, 2019, the Authority entered into a new Credit Facility Loan Agreement (“BNA Credit Facility”). The lender made available to the Authority a non-revolving line of credit in the maximum principal amount of \$300,000,000, the proceeds of which were to be used to finance a portion of the cost of the Authority’s capital improvement program, including land acquisition and the acquisition, construction, rehabilitation, replacement, repair, renovation, improvement and reconstruction of terminal, airfield, parking, hangar, roadway, hotel, multi-modal transit facilities and the acquisition of airport equipment and other facilities and improvements as necessary and appropriate for the operation of such airport facilities at the Nashville International Airport or John C. Tune Airport. The Credit Facility was amended in December 2019 to increase the maximum principal amount to \$400,000,000. Principal and interest on this line of credit are payable from the net revenues, subject and subordinate, and secured by a lien and pledge on the net revenues junior and inferior, to the lien and pledge on the net revenues created under the General Resolution including the Master Subordinate Resolution for the payment and security of the bonds but on a parity with the Parity Other Obligations. In January 2022, the note was amended to carry a maximum principal amount of \$300,000,000. The taxable portion of the Credit Facility bears interest at a variable interest rate equal to BSBY1M plus 52 basis points for the taxable Credit Facility. The nontaxable portion of the Credit Facility bears interest at a variable interest rate equal to 80% BSBY1M plus 42 basis points. In December 2023, the note was amended to extend the maturity of notes and the commitment expiration date for a period not to exceed one year. The note matures on November 15, 2024. The rates at June 30, 2024 were 5.89% for the taxable Credit Facility, and 4.72% for the nontaxable Credit Facility. Interest on this Credit Facility totaled \$938,698 and \$2,060,636 during fiscal years 2024 and 2023, respectively. Accrued interest on this line of credit was \$101,759 and \$71,252 at June 30, 2024 and 2023, respectively.

The Credit Facility contains default provisions as defined in the agreements. In the event of default, the obligations shall bear interest at the default rate – PRIME plus 3%. In the event of default, the lender may make one or more of the following actions at any time and from time to time (the actions may be taken at the same time or at different times):

- (i) The lender may terminate the available commitment and declare the outstanding amount due under the obligations immediately due and payable.
- (ii) The lender may sell or otherwise transfer all or a portion of the notes.
- (iii) At the expense of the Authority, the lender may cure any default, event of default, or event of nonperformance, bringing all delinquent balances current and adding the delinquent balances to the total outstanding owed by the Authority.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

5. Long-term Debt (continued)

Long-term debt activity for the years ended June 30, 2024 and 2023 were as follows:

	Balance July 1, 2023	New Borrowings	Principal Repayment	Amortization	Balance June 30, 2024	Due within one year
Direct placement - special facility revenue bonds	\$ 21,197,130	\$ -	\$ (3,240,773)	\$ -	\$ 17,956,357	\$ 3,350,795

6. Passenger Facility Charges

On January 1, 1993, the airlines began collecting a Passenger Facility Charge (“PFC”) on qualifying enplaning passengers at Nashville International Airport on behalf of the Authority. PFCs are fees imposed on enplaning passengers by airports to finance eligible airport-related projects that preserve or enhance safety, capacity, or security of the national air transportation system, reduce noise from an airport that is part of such system, or furnish opportunities for enhanced competition between or among air carriers. Both the fee and intended projects must be reviewed and approved by the FAA. Federal guidance on the PFC program has been updated occasionally since 1993, and the current maximum fee that can be authorized through federal regulation is \$4.50 per enplaning passenger. PFCs are recorded as nonoperating revenue. PFC revenue during fiscal years 2024 and 2023 totaled \$44,734,128 and \$41,561,943, respectively.

Effective September 2010, the Authority could collect a \$3.00 PFC per enplaning passenger. In May 2015, the Authority began collecting a \$4.50 PFC per enplaning passenger. The Authority anticipates remaining at this \$4.50 collection level. The following project summary has been approved by the FAA as of June 30, 2024:

Airfield development	\$ 218,905,270
Terminal development	1,311,492,678
Land acquisition	21,260,411
	<u>\$ 1,551,658,359</u>

As of June 30, 2024, cumulative expenditures to date on approved PFC projects totaled \$393,204,124.

7. Customer Facility Charges

On January 1, 2008, the Authority began requiring the car rental companies at Nashville International Airport to charge a Customer Facility Charge (“CFC”) to be used to pay, or to reimburse the Authority, for costs, fees and expenses associated with the planning, design, construction, financing, maintenance and operation of the Consolidated Rental Car (“CONRAC”) Facility, and other costs, fees, and expenses that may be paid from CFC proceeds. The CFC is a \$4.50 per transaction day fee and is collected by on-airport car rental companies from each customer and subsequently remitted to the Authority. The Authority has pledged the CFC proceeds as collateral security for the payment of the CONRAC Series 2010 and 2018 bonds issued in February 2010 and May 2018, respectively. Additionally, in accordance with the terms of the CONRAC Series 2010 and 2018 bond agreements, CFCs must be used to establish bond principal, interest, and reserve funds, as well as various other funds for the operation and maintenance of the CONRAC facility (See Note 5). The Authority can use CFCs collected in excess of the various refunded funds for any lawful purpose. CFC revenue during fiscal years 2024 and 2023 totaled \$17,283,641 and \$15,494,211, respectively. CFC revenue is reported in non-operating revenues.

The Authority is leasing the facility to MPC CONRAC LLC under a lease agreement and is leasing back the facility from MPC CONRAC LLC under a sublease agreement. In turn, the Authority will lease the CONRAC facility to on-airport rental car companies under the consolidated rental car lease agreements. Under these lease agreements, on-airport rental car companies have agreed to collect the CFC on all vehicle rental transactions as specifically set forth in the CFC enabling resolution and the related lease agreements.

Net position relating to CFCs totaled \$29,784,847 and \$29,714,942 at June 30, 2024 and 2023, respectively, and is included in net investment in capital assets and restricted net position in the statements of net position.

8. Special Facility Revenue Bonds

Special facility revenue bonds, series 2005

During April 2005, the Authority issued \$9,500,000 of Special Facility Revenue Bonds, Series 2005, on behalf of Embraer Aircraft Maintenance Services, Inc. The bonds were issued to finance the development and construction of an aircraft maintenance facility at Nashville International Airport.

The outstanding Special Facility Revenue Bonds, Series 2005, are special obligations of the Authority, and the debt service thereon shall be payable solely from revenues provided by Embraer Aircraft Maintenance Services, Inc., pursuant to a special facility sublease agreement or from letter of credit drawings made by the trustee. These bonds mature in April 2030. The principal balance outstanding as of June 30, 2024 and 2023 was \$9,500,000. These bonds do not represent a claim on the Authority’s assets or require the Authority to incur future obligations. Therefore, they represent conduit debt and have not been recorded in the Authority’s financial statements.

Special facility revenue bonds, series 2006/refunding series 2010

During July 2006, the Authority approved an amendment to the ground lease with Aero Nashville, LLC, whereby the Authority agreed to issue \$6,515,000 of Special Facility Revenue Bonds, Series 2006, on behalf of Aero Nashville, LLC. Aero Nashville is an affiliate of Aeroterm US, Inc., the firm selected by Federal Express Corporation to be the developer of a 69,000-square-foot cargo and support facility on approximately 15 acres of land at Nashville International Airport in 2005.

During November 2010, the Authority issued \$6,200,000 in Special Facility Revenue Bonds, Refunding Series 2010, the proceeds of which were used to currently refund the outstanding Series 2006 bonds. The Refunding Series 2010 bonds are term bonds with mandatory sinking fund requirements annually through July 2026.

8. Special Facility Revenue Bonds (continued)

The Special Facility Revenue Bonds, Series 2006, and outstanding Refunding Series 2010 bonds are special obligations of the Authority and the debt service thereon shall be payable solely from revenues provided by Aero Nashville, LLC pursuant to a special facility sublease agreement or from letter of credit drawings made by the trustee. The principal balance outstanding as of June 30, 2024 and 2023 was \$1,215,000 and \$1,800,000, respectively. Since these bonds do not represent a claim on the Authority's assets or require the Authority to incur future obligations; they represent conduit debt and have not been recorded in the Authority's financial statements.

9. Airline Use and Lease Agreement

During fiscal year 2024, the Authority entered into a new Signatory Airline Use and Lease Agreement with an eight-year term from July 1, 2023 to June 30, 2031 (the "Airline Agreement") with Alaska Airlines, Allegiant Airlines, American Airlines, Delta Air Lines, Federal Express, Frontier Airlines, JetBlue, Southwest Airlines, Spirit Airlines, and United Airlines. The Airline Agreement contains a two-year option to extend through mutual agreement between the Authority and the signatory airlines no less than two years before expiration.

As per the Airline Agreement, passenger carriers must pay at least 1% of the total rates, charges, and fees paid by all signatory airlines. Cargo carriers must pay at least 1% of annual landing fees paid by all signatory airlines.

The Authority created five airline cost centers for the purpose of accounting for and allocating costs and revenues at the airport to establish rates and charges for use of the airfield, terminal, passenger loading bridges, baggage handling system, and terminal ramp area. In addition to the five airline cost centers, the Authority also allocates costs and revenues to three Authority cost centers (parking and ground transportation, other buildings and areas, and the reliever airport) and one indirect cost center (general administration and overhead). The Authority's indirect cost center is allocated to the direct airline cost centers. As described below, rate-setting at the airport is "hybrid". Landing fees are calculated using a residual methodology, the terminal rental rates are calculated using a commercial compensatory methodology, and other rates are calculated using a compensatory methodology. In the airfield cost center, the airlines have the primary responsibility, risk, and benefit from non-airline revenues. In the other cost centers, the Authority and airlines share the responsibility, risk, and benefits.

Landing fees under the Airline Agreements are calculated on a residual basis. Signatory Airlines have Majority-in-Interest ("MII") review rights for capital projects in the airfield cost center exceeding \$2.0 million. The form of MII is negative (e.g., the Authority may proceed unless it receives disapproval from the majority). Rolling debt service coverage is incorporated into the rate calculations for all airline cost centers.

Terminal rents are based on the terminal rental rate per square foot calculated on a commercial compensatory basis in accordance with the business deal agreed to in principle by the Authority and the signatory airlines. The Airline Agreement contains a 50% airline rented space minimum if debt service coverage requirements are not met. The Authority's internal debt management policy requires a debt service coverage ratio of 1.5x for senior lien debt service, and 1.25x for combined debt service. The Authority's bond documents require a debt service coverage ratio of 1.25x for senior lien debt service, and 1.10x for subordinate lien debt service. If debt service coverage requirements are not met, then the Authority may increase the airlines' share of the terminal requirement by the lesser of the amount necessary to meet the coverage requirements, or the amount necessary to make the airlines' share of the terminal requirement equal to 50%. The terminal requirement includes operating expenses, debt service, rolling debt service coverage, amortization of capital costs, operations and maintenance reserve fund, and renewal and replacement fund. Signatory airlines occupying the satellite concourse receive a 2.5% discount from the main terminal rate.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

9. Airline Use and Lease Agreement (continued)

Terminal ramp area, passenger loading bridge, and baggage equipment rates are calculated using a compensatory methodology and include rolling debt service coverage equal to 25% of incremental senior lien debt service and 10% of incremental subordinate lien debt service, as well as the amortization of Authority cash expenditures on terminal ramp area cost center capital projects.

The Authority has committed to spending \$75 million in Authority cash over the term of the agreement to fund capital projects currently identified for airline cost centers (other than the airfield cost center). Amounts will be amortized in the airline base over the useful life of the asset(s).

Revenue sharing credits for signatory airlines is an agreed-upon calculation in which the total amount of revenue to be shared is determined on the weighting of three factors: net remaining revenues, in-terminal concessions, and a fixed share per enplanement.

The Airline Agreements provide signatory airline support for John C. Tune Airport, including certain reliever airport support costs in the landing fees.

The Authority also owns MPC, a Tennessee nonprofit corporation, whose purpose is to support and facilitate the operations of the Authority and to help the economic development of the surrounding area. The Airline Agreements do not provide any signatory airline support for MPC. MPC financial obligations are not included within the Master Resolution, and any MPC shortfalls or deficits must be paid from other available Authority funds.

10. Risk Management and Insurance Arrangements

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; illnesses or injuries to employees; and natural disasters.

Self-insured employee medical benefit claims are accrued as incurred. The liability for reported claims and claims incurred but not reported, an estimate of which is based on historical experience and management projections, is reported with accrued payroll and related items in the financial statements. This liability does not include non-incremental claims adjustment expenses.

The following summarizes the changes in the estimated claims liability at June 30:

	<u>2024</u>	<u>2023</u>
Balance - beginning of year	\$ 212,516	\$ 430,008
Provision for incurred claims	4,559,821	3,434,346
Claim payments	<u>(4,406,634)</u>	<u>(3,651,838)</u>
Balance - end of year	<u>\$ 365,703</u>	<u>\$ 212,516</u>

The Authority carries commercial insurance for other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Environmental remediation

On October 9, 2012, the Authority entered into a Consent Order with the Tennessee Department of Environment and Conservation in response to a routine inspection which identified that a local area stream

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

10. Risk Management and Insurance Arrangements (continued)

had been contaminated by untreated de-icing chemicals. In the Consent Order, the Authority was assessed a penalty of \$22,500, and it was determined that Natural Resource Damages in the amount of \$218,520 exist. In lieu of payment, the Authority proposed to upgrade its de-icing fluid collection and treatment system. Multiple projects, worth over \$8,000,000, were undertaken. The upgrades diverted uncontaminated storm water away from the treatment system so that only storm water containing deicer fluid is collected for treatment. This allows for additional fluid storage and improves the treatment system process by systematically feeding the fluids to the biological treatment lagoon. The Authority continues to perform monitoring and reporting to the Tennessee Department of Environment and Conservation in compliance with NPDES Permit TN0064041.

The Authority is a defendant in various legal proceedings incidental to its operations. In the opinion of management and the Authority’s legal counsel, while the ultimate outcome of these matters, including an estimate of potential loss, cannot presently be determined, any losses sustained would not be material to the Authority’s financial position or operations. Additionally, losses sustained would be recoverable through the Authority’s leases with certain airlines discussed in Note 9.

11. Compensated Absences

Compensated absences are another component of the Authority’s employee benefits program. Based on years of service, employees earn annual leave and may accumulate earned hours to certain limits for future use. In 2024 and 2023, employees sold back \$278,931 and \$238,642 of their annual leave balances to the Authority in exchange for cash. Additional payments of \$611,549 and \$294,150 were made to employees who left employment with the Authority during the years ended June 30, 2024 and 2023, respectively. The change in accrued compensated absences balance is charged to salaries and wages expense.

The following summarizes the changes in the compensated absences liability at June 30:

	<u>2024</u>	<u>2023</u>
Balance - beginning of year	\$ 3,185,356	\$ 2,698,833
Provision for compensated absences	4,593,307	3,725,810
Annual leave used	(3,292,622)	(2,706,495)
Annual leave buy-back and other	<u>(890,480)</u>	<u>(532,792)</u>
Balance - end of year	<u>\$ 3,595,561</u>	<u>\$ 3,185,356</u>

The compensated absences liability is included in accrued payroll and related items on the statements of net position, and is due within one year.

12. Retirement Benefit Plan

General information about the pension plan

Plan description

Effective September 1, 1989, the Metropolitan Nashville Airport Authority (the “Authority”) adopted a single-employer public employee retirement system (“PERS”) for its employees, whereby the net position restricted for benefits relative to the Authority’s employees were transferred from the retirement system of the Metropolitan Government of Nashville and Davidson County (the “Metropolitan Government”) to the Metropolitan Nashville Airport Authority Retirement Plan for Employees. Those net assets transferred from the Metropolitan Government’s retirement system to the Plan included accumulated employee contributions and allocated investment income. The Plan is a defined benefit pension plan.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

12. Retirement Benefit Plan (continued)

The Plan is administered by the Authority’s management and is governed by a Retirement Committee (the “Committee”). The Committee members are appointed by the Authority. On June 30, 2024, the Committee consists of 7 voting members, 5 of whom are active Authority senior management, two of whom are active Authority employees and members of the Plan. The Authority’s Assistant Vice President of Finance is a non-voting member on the committee.

Benefits provided

Eligible employees become 100% vested in their accrued pension benefit after 5 years of credited service and may elect to retire at any time after age 65 (or after age 55 for safety and security employees with completion of 10 years of service).

The employees retiring at or after age 65 (55 for safety and security employees) are entitled to a retirement benefit, payable monthly for life, equal to one-twelfth of the product of 2% of average earnings multiplied by years of credited service. Average earnings are the average of annual earnings for the five full consecutive calendar years in which earnings were the highest or for such lesser number of full calendar years of service as have been completed. Credited service is the total number of years and completed one-half months of service from the date of hire to date of termination, adjusted for some certain periods of unpaid absence. Certain supplemental benefits have been provided for in the Plan as incentives for certain prior officers of the Authority.

Early retirement under the Plan is retirement from service prior to the participant’s normal retirement date and on or after the date as of which the participant has attained both the age of 55 years and completed 5 years of vesting service. A participant classified as a safety and security employee is eligible for early retirement on or after the date as of which such employee has attained both the age of 50 years and completed 5 years of vesting service. Participants electing early retirement, as defined above, receive reduced benefits immediately or may defer and receive full benefits at normal retirement age. There are also certain benefit provisions upon death or disability.

Changes to the Plan, including benefits provided thereunder, can be made only by formal resolutions of the Authority’s Board of Commissioners. Additionally, cost-of-living adjustments are made only as approved by the Board of Commissioners. Cost-of-living adjustments are provided to members and beneficiaries at the discretion of the Authority. Benefit provisions are established and may be amended by the Authority.

Employees covered by benefit terms

On June 30, 2024, the following employees were covered by the benefit terms:

Retired	203
Deferred vested	49
Active vested	37
Total covered employees	<u>289</u>

Effective June 27, 2003, the Plan was closed to new participants; therefore, employees hired after June 27, 2003, are not eligible to participate in the Plan.

Contributions

The Plan is non-contributory for employees; accordingly, no contributions shall be required or permitted to be made by Plan participants. The Authority’s Board of Commissioners has approved a funding plan which establishes the expected employer contributions to the Plan through fiscal year 2024. In determining the funding plan, the Authority considers the actuarially determined contribution, as recommended by an independent actuary. The actuarially determined contribution is the estimated amount necessary to finance

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

12. Retirement Benefit Plan (continued)

the costs of benefits earned by Plan participants, with an additional amount to finance the net pension liability. The actuarially determined contribution is calculated using a funding valuation that uses the asset smoothing method. The asset smoothing method used is a 3-year weighted average of asset gains and losses, subject to a 20% corridor.

Pension net position

The Authority does not issue separate financial statements for the pension plan. The investments of the Plan are governed by an investment policy approved by the Authority's Retirement Committee. The investment policy establishes the Plan's investment objectives, portfolio benchmarks, and asset allocation parameters. The investment policy also requires certain qualifications of investment managers, review of investment returns, and reporting requirements. Generally, the investment policy specifies a long-term investment horizon with investment returns to be achieved without undue investment risk. Changes to the investment policy can be made only by formal resolution of the Board of Commissioners. The investment policy for the Retirement Plan for Employees of the Metropolitan Nashville Airport Authority and the Metropolitan Nashville Airport Authority Other Post-Employment Benefit Plans was updated and became effective August 2019.

The Plan's investment assets are held in trust by the Plan's trustee for the benefit of Plan participants. Investments in equity and bond mutual funds are stated at fair value using quoted market prices in active markets (level 1), net asset value per share (or its equivalent), and various market and industry inputs (level 2). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The Plan's investment assets are held in trust by the Plan's trustee, Principal.

Additional information regarding pension net position is included in Note 14.

The Plan's investments which represented 5% or more of net position as of June 30, 2024 and 2023 are as follows:

Description of Investment		2024	2023
Principal	Dodge and Cox Intermediate Bond	\$ 9,731,050	\$ 9,192,456
Principal	Metropolitian West Total Return Bond Fund Class I	9,712,035	9,152,995
Principal	Federated Total Return Bond	9,702,767	9,149,734
Principal	Allspring Core Bond	9,696,219	9,162,717
Principal	Blackrock S&P 500 Index	8,687,419	8,260,037
Principal	Blackrock S&P Midcap Index	5,823,812	5,545,284
	Other funds representing less than 5%	31,459,553	29,153,242
	Total investment and net position	<u>\$ 84,812,855</u>	<u>\$ 79,616,465</u>

Net pension liability

The Authority's net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

12. Retirement Benefit Plan (continued)

Actuarial assumptions

The total pension liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.0%, compounded annually
Salary increases	4.0% per annum, compounded annually
Investment rate of return	5.5% per annum, compounded annually, net of pension plan investment expense and inflation

The mortality table was changed from the RP-2014 Generational Mortality Table for Males and Females, as applicable, with adjustments for mortality improvements based on Scale MP-2021 to the RP-2014 Generational Mortality table for Males and Females with Improvement Scale MP-2022. The discount rate remains the same at 5.5%.

The annual money-weighted rate of return on pension assets was 10.69% in fiscal year 2024.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity - Small Cap	4.00%	7.20%
Domestic Equity - Large Cap	26.50%	5.80%
Domestic Equity - Mid Cap	7.00%	6.70%
International Equity	12.50%	6.60%
Fixed Income	47.00%	2.40%
Cash	3.00%	1.60%

Discount rate

The discount rate used to measure total pension liability is 5.5%, compounded annually. The Authority's Board of Commissioners has approved the funding policy, as described in the contributions section above.

The Authority intends to make contributions under the funding plan, as required to keep the Plan solvent, and to meet the minimum funding requirements of the State of Tennessee. Having a formal funding policy and statutory contributions in the future supports the position that the Plan's fiduciary net position will remain positive in the future. Accordingly, the long-term rate of return-on-investment assets has been used as the discount rate for all future periods.

2025	\$ (294,333)
2026	\$ 2,102,021
2027	\$ (1,256,260)
2028	\$ (762,734)

13. Other Postemployment Benefits (OPEB)

General information about the OPEB plan

Plan description

On April 22, 2009, the Board of Commissioners approved MNAA Resolution 2009-07 establishing an investment trust for the purpose of funding OPEB as provided in Tennessee Code Annotated, Title 8, Chapter 50, Part 12. The Tennessee State Funding Board approved the formation of the trust on June 17, 2009. There is no obligation to fund the trust; however, management has a plan whereby cash contributions are intended to be made to help offset the anticipated increased outflows in future years to cover retiree benefits.

The Plan is administered by the Authority’s management and is governed by a Retirement Committee (the “Committee”). The Committee members are appointed by the Authority. On June 30, 2024, the Committee consists of 7 voting members, 5 of whom are active Authority senior management, two of whom are active Authority employees and members of the Plan. The Authority’s Assistant Vice President of Finance is a non-voting member on the committee.

The Authority voluntarily provides postemployment healthcare benefits to certain eligible employees who retire under either the Authority’s PERS or the Metropolitan Government’s PERS.

Benefits provided/Contributions

As part of the OPEB actuarial evaluation on July 1, 2013, which was effective for the Authority’s 2014 fiscal year, certain changes to the OPEB Trust were considered, including the following: The Authority adopted an Employer Group Waiver Plan (EGWP) for post-65 retiree pharmacy benefits effective January 1, 2014. Additionally, the Authority adopted certain post-65 stop loss coverage.

Effective January 1, 2017, the Authority offered a Medicare Supplement Plan. Retirees and spouses (post 65) had the option to enroll in the Medicare Supplement Core or Core Plus plans through AmWINS Group Benefits if they desired to continue coverage through the Authority. If they desired not to enroll in Authority supplemental plans, they have the option to enroll in the individual Market Medicare Plans.

The Authority makes a monthly contribution of \$250 for each participant (retiree and spouse) in a Health Reimbursement Account (HRA). These contributions are to be used toward the monthly premiums of those who have elected Authority plans or an individual market plan.

The account reimburses the participant for their individual medical, dental, or vision premiums along with out-of-pocket health care expenses such as co-pays, deductibles, coinsurance, etc.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

13. Other Postemployment Benefits (OPEB) (continued)

For retirees under 65, the Authority pays approximately 75% of the medical, dental, vision, and prescription coverage cost, with retirees paying the remaining 25%. Currently, 137 Pre-65 people are receiving OPEB benefits. The monthly contribution requirements for participants in the Authority’s medical plan range from \$78.22 (single “HDHP” wellness rate premium) to \$537.96 (family “PPO” non-wellness rate premium). The Authority elected not to provide postemployment benefits to any new entrants on January 1, 2009. Therefore, any employee hired on or after this date is not eligible for any postemployment benefits through the Authority.

Under the Metropolitan Government’s PERS, the Authority pays 75% of the cost of medical and dental coverage, while the retirees pay the remaining 25%. As of June 30, 2024, there were 6 retirees receiving benefits under the PERS. During the years ended June 30, 2024 and 2023, payments of \$48,811 and \$71,644, respectively, were made to the Metropolitan Government for postemployment benefits under this PERS.

Employees covered by benefit terms

On June 30, 2024 the following employees were covered by the benefit terms:

Actives (with medical coverage)	67
Retirees (with medical coverage)	135
Covered spouses of retirees	78
Surviving spouses of retirees (with medical coverage)	15
Retirees (receiving stipend only)	45
Deferred vested employees	51
Total covered employees	<u>391</u>

OPEB net position

The Authority does not issue separate financial statements for postemployment benefits. The OPEB’s net position consists solely of the Plan’s investments at fair value as there are no significant related liabilities or deferred inflows or outflows.

The investments of the Plan are governed by an investment policy approved by the Authority’s Retirement Committee. The investment policy establishes the Plan’s investment objectives, portfolio benchmarks, and asset allocation parameters. The investment policy also requires certain qualifications of investment managers, review of investment returns, and reporting requirements. Generally, the investment policy specifies a long-term investment horizon with investment returns to be achieved without undue investment risk. Changes to the investment policy can be made only by formal resolution of the Board of Commissioners. The investment policy for the Retirement Plan for Employees of the Metropolitan Nashville Airport Authority and the Metropolitan Nashville Airport Authority Other Post-Employment Benefit Plans was updated and became effective August 2019.

The Plan’s investment assets are held in trust by the Plan’s trustee for the benefit of Plan participants. Investments in equity and bond mutual funds are stated at fair value using quoted market prices in active markets (level 1). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. The Plan’s investment assets are held in trust by the Plan’s trustee, Principal.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

13. Other Postemployment Benefits (OPEB) (continued)

The Plan's investments which represented 5% or more of net position as of June 30, 2024 and 2023 are as follows:

Description of Investment		2024	2023
Principal	Vanguard 500 Index Fund	\$ 5,430,524	\$ 4,985,388
Principal	Allspring Core Bond Fund	4,010,084	3,631,111
Principal	Metropolitian West Total Return Bond Fund Class I	4,002,603	3,624,050
Principal	Dodge & Cox Income Fund	4,002,015	3,639,107
Principal	Federated Total Return Fund Class I	4,000,610	3,623,996
Principal	Northern Mid Cap Index Fund	3,640,904	3,347,584
	Other funds representing less than 5%	18,088,779	16,639,960
	Total investment and net position	<u>\$ 43,175,519</u>	<u>\$ 39,491,196</u>

Net OPEB asset

The Authority's net OPEB asset was measured as of June 30, 2024, and the total OPEB asset was determined by an actuarial valuation as of that date.

Actuarial assumptions

Actuarial valuations of an ongoing postemployment benefits plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplemental information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of Trust assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive postemployment benefits (the Plan as understood by the employer and retirees) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and retirees to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The total OPEB liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial valuation method	Entry age normal rate
Discount rate	6%
Expected long-term rate of return on plan assets	6%
Healthcare cost trend rate	7.00% graded down using the Getzen model
Dental and vision rate	5%
Retirement rates	Varying rates beginning with 5% at age 50 to 100% retirement at age 65

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

13. Other Postemployment Benefits (OPEB) (continued)

The Medical trend was changed from 6.25% graded to 5.20% over 2 years and following the Getzen model thereafter to 7.00% grading to 5.60% over 2 years and following the Getzen model thereafter.

Effective January 1, 2017, Medicare-eligible retirees, retiree spouses, and disabled participants will receive \$3,000 per year to purchase health coverage on an exchange.

Claims were adjusted for aging based on the Yamamoto aging table for non-Medicare participants, normalized at age 65.

The long-term expected rate of return on Plan assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Domestic Equity - Small Cap	4.80%	7.20%
Domestic Equity - Large Cap	31.80%	5.80%
Domestic Equity - Mid Cap	8.40%	6.70%
International Equity	15.00%	6.60%
Fixed Income	37.00%	2.40%
Cash	3.00%	1.60%

Due to the Plan's asset allocation, the long-term rate of return of 6.0% was selected. Plan assets, together with projected future contributions based on historic experience, are expected to cover benefits payments for the duration of the Plan.

15. Defined Contribution Plans

The Authority offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457, which is administered by a third party, Voya Retirement Services. The plan, available to all Authority employees, permits the deferral of a portion of salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The assets of the plan are held in custodial and annuity accounts for the exclusive benefit of plan participants, and accordingly, the related assets of the plan are not reflected on the Authority's statement of net position. Beginning January 1, 2001, the Authority's matching contributions have been made to a deferred compensation plan created in accordance with Internal Revenue Code Section 401(a). Employer contributions vest without any waiting period. Amounts contributed by the Authority to the deferred compensation plan were \$1,424,186 and \$1,223,457 in 2024 and 2023, respectively. Employees contributed through payroll deductions to the plan \$1,801,664 and \$1,550,257 in 2024 and 2023, respectively.

During May 2013, the Board of Commissioners approved an additional 401(a) defined contribution retirement plan, which is administered by a third party, Voya Retirement Services. Under this additional plan, the Authority contributed 10% of an employee's base compensation on an annual basis. This 401(a) plan is available only to employees hired after June 27, 2003, who do not participate in the Authority's defined benefit pension plan described in Note 12. All contributions by the Authority are discretionary, and vest after one year of employment. Any forfeitures are refunded to the Authority. Amounts contributed by the Authority to the deferred retirement compensation plan were \$2,505,508 and \$2,007,056 in 2024 and 2023, respectively.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

16. Lease Accounting

Lessor

The Authority's financial statements include the adoption of GASB Statement No. 87, *Leases* ("GASB No. 87"). The primary objective of GASB No. 87 is to enhance the relevance and consistency of information about governmental leasing activities. GASB No. 87 establishes a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset. Under GASB No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. For additional information, refer to the disclosures below.

The Authority leases certain assets to various third parties. The assets leased include space, ground and lands leased in the airfield and grounds, terminal building, John C. Tune Airport, Multi-Purpose Building and International Plaza Building. These payments are generally fixed monthly payments with certain variable payments not included in the measurement of the lease receivable. These payments are based on a percentage of lessee's revenue above the Minimum Annual Guarantee.

During the years ended June 30, 2024 and 2023, the Authority recognized the following related to its lessor agreements:

	<u>2024</u>	<u>2023</u>
Lease revenue	\$ 13,743,627	\$ 12,076,379
Interest Income related to its leases	\$ 3,467,654	\$ 2,135,383
Revenue from variable payments not previously included in the measurement of the lease receivables	\$ 8,848,956	\$ 4,313,326

Summary of Lease Activities as of June 30:

	<u>2024</u>	<u>2023</u>
Buildings		
Number of leases	63	61
Term	1 to 900 months	1 to 398 months
Lease receivable	\$ 95,171,289	\$ 86,069,995
Lease revenue	\$ 10,274,839	\$ 8,598,478
Termination options	1 to 3 months	1 to 3 months
Land		
Number of leases	13	13
Term	10 to 566 months	10 to 566 months
Lease receivable	\$ 50,324,410	\$ 52,989,450
Lease revenue	\$ 3,468,788	\$ 3,477,901

Included in the Authority's lease receivables at June 30, 2024 and 2023 are \$145,495,699 and \$139,059,446, respectively, related to leases whose revenue is pledged to secure certain outstanding debt obligations of the Authority. The leases contain lessee options to terminate the leases or abate payments under certain circumstances. These include passenger volumes dropping to an unsustainable level, failure to perform by lessor, or the assumption of the US Government or authorized agency to control or restrict the use of the lessee's assigned area. Certain leases allow the lessee to cancel for any reason with 1 to 3 months' advance written notice.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

16. Lease Accounting (continued)

Future principal and interest payment requirements related to the Authority's lease receivable at June 30, 2024 are as follows:

Principal and Interest Expected to Maturity			
Fiscal Year	Principal Payments	Interest Payments	Total Payments
2025	\$ 11,886,049	\$ 3,627,304	\$ 15,513,353

2070-2074	1,345,459	1,616,934	2,962,393
2075-2079	1,073,839	1,426,161	2,500,000
2080-2084	1,301,194	1,198,806	2,500,000
2085-2089	1,576,685	923,315	2,500,000
2090-2094	1,910,504	589,496	2,500,000
2095-2099	2,062,987	187,014	2,250,001
Total principal and interest expected to maturity	\$ 145,495,699	\$ 60,490,119	\$ 205,985,818

Regulated Leases

The Authority leases certain assets to various third parties as regulated leases, as defined by GASB Statement No. 87. The leased assets include jet bridges, ticket counters, ticket offices, passenger hold-rooms, concourse operations space, baggage service areas, hangars, grounds and land, and are regulated under the FAA Rates and Charges Policy and Grant Assurance 22. Certain assets are subject to preferential or exclusive use by the counterparties to these agreements, as follows:

Jet bridges – 46 of 54 total jet bridges are designated preferential use

Passenger hold rooms – 85% of available space is designated preferential use

Baggage service – 84% of available space is designated preferential use

Ticket counter space – 78% of available space is designated preferential use

Ticket counter queue space – 78% of available space is designated for preferential use

Ticket office space – 79% of available space is designated exclusive use

Concourse operations space – 90% of available space is designated exclusive use

**Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023**

16. Lease Accounting (continued)

During the year ended June 30, 2024, the Authority recognized the following from regulated leases:

Regulated lease revenue: \$39,903,564

Revenue from variable payments not included in schedule of expected future minimum payments: \$21,642,171

Future expected minimum payments related to the Authority's regulated leases at June 30, 2024 are as follows:

Fiscal Year	Future Minimum Expected Receipts
2025	\$ 6,743,275
2026	\$ 6,582,525
2027	\$ 6,694,671
2028	\$ 6,699,706
2029	\$ 6,746,513
2030-2034	\$ 30,709,996
2035-2039	\$ 23,691,363
2040-2045	\$ 21,617,157
2046-2049	\$ 24,422,030
2050-2054	\$ 27,708,092
2055-2059	\$ 15,575,174
2060-2064	\$ 2,263,787
2065-2069	\$ 1,672,334
2070	\$ 205,256

The Authority has entered into certain regulated leases whereby the related lease revenue is pledged to secure certain outstanding debt obligations of the Authority. These leases contain lessee options to terminate the lease or abate payments under certain circumstances such as: for convenience with 90-180 days' notice, failure of Authority to repair or reconstruct property necessary for aircraft operations, failure of Authority to keep airfield open at all practical times in accordance with its FAA Operating Permit, failure to disclose and conflict or potential conflict of interest, default by Authority, assumption of the United States Government, or any authorized agency, to control airport operations in such a manner that substantially restricts the lessee's use of its assigned area, and any other breach of terms not remedied within 30 days of notice.

17. Subscription-based Information Technology Arrangements

GASB 96 – Included Subscription-based Information Technology Arrangements

The Authority's financial statements include the adoption of GASB Statement No. 96, *Subscription Based Information Technology Arrangements* (SBITA). The primary objective of this statement is to enhance the relevance and consistency of information about governments' leasing activities. This statement provides one methodology for the accounting and financial reporting for subscription-based information technology arrangements. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset. For additional information, refer to the disclosures below.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

17. Subscription-based Information Technology Arrangements (continued)

The Authority has entered SBITAs with various third parties. These arrangements provide access to airline common use systems, accounts receivable software, public warning platforms, and project management software. The leased assets include access to a third party's proprietary software. A subscription asset and related accumulated amortization are included in capital assets on the Statement of Net Position. SBITAs that include maintenance or support services in addition to access to a third party's proprietary software are reported below. A summary at June 30, 2024 is as follows:

Subscription asset	\$ 3,777,401
Accumulated amortization	\$ 2,027,494
Term	2 to 54 months

The following summarizes the changes in the subscription lease liability at June 30:

	<u>2024</u>	<u>2023</u>
Balance - beginning of year	\$ 1,074,154	\$ 508,601
Additional subscriptions	1,447,109	1,263,358
Principal payments	(955,105)	(697,805)
Balance - end of year	<u>\$ 1,566,158</u>	<u>\$ 1,074,154</u>

Future principal and interest payment requirements related to the Authority's lease liability at June 30, 2024 are as follows:

Principal and Interest Requirements to Maturity			
Fiscal Year	Principal Payments	Interest Payments	Total Payments
Current principal and interest requirements to maturity:			
2025	\$ 912,264	\$ 18,913	\$ 931,177
Noncurrent principal and interest requirements to maturity:			
2026	480,902	6,480	487,382
2027	84,598	2,542	87,140
2028	88,394	1,299	89,693
Total noncurrent principal and interest requirements to maturity	<u>653,894</u>	<u>10,321</u>	<u>664,215</u>
Total principal and interest requirements to maturity	<u>\$ 1,566,158</u>	<u>\$ 29,234</u>	<u>\$ 1,595,392</u>

GASB 96 – Excluded SBITAs

In accordance with GASB Statement No. 96, the Authority does not recognize a SBITA liability or right-to-use asset for SBITAs that are considered short-term, or a maintenance or support arrangement.

Metropolitan Nashville Airport Authority
Notes to the Financial Statements
Years Ended June 30, 2024 and 2023

18. Public-Private and Public-Public Partnerships

During the year ended June 30, 2021, the Authority entered into a public-public/public-private partnership arrangement with Nashville Airport Hotel Partners, LLC (the “operator”), under which the operator designed, built, and will operate the onsite hotel for seventy-five years. The onsite hotel was placed into service during fiscal year 2024. The operator will be entitled to all fees during the period of the arrangement. At the end of the arrangement, the hotel will be transferred to the Authority. At June 30, 2024, the Authority recognized a receivable of \$12,253,876 for installment payments of \$500,000 per annum, discounted at a rate of 3.847%, and reports a deferred inflow of resources in the amount of \$12,225,294, pursuant to the public-public/public-private partnership arrangement.

Additionally, the operator also constructed a parking garage, placed into service during fiscal year 2023, for the use of onsite hotel guests. The Authority paid the operator a developer fee of \$3,090,000 and reimbursed the operator for the construction of the garage. The carrying value of the parking garage was \$84,137,297 at June 30, 2024. The operator is solely responsible for setting parking rates for the parking facilities within the hotel premises; provided, however, that in no event may the operator charge less for use of its parking facilities than the Authority is then charging for use of the balance of the garage facility.

The operator shall remit a percentage of annual gross revenues derived from the business conducted on the hotel premises, including the parking garage, to the Authority as follows:

Annual Gross Revenues	Percent Payable to the Authority
\$0 - \$22,500,000	0%
\$22,500,001 - \$40,000,000	5%
\$40,000,001 - \$80,000,000	6%
\$80,000,001 or more	10%

Notes to Schedule of Changes in the Net Pension Liability (Asset) and Schedule of Pension Contributions

Actuarially determined contribution rates for each year presented in the Schedule of Pension Contributions are based on an actuarial valuation performed as of the first day of each year for which the contributions relate. Methods and assumptions used to determine the contribution rate for the June 30, 2024 actuarially determined contribution are below. For each year presented in the Schedule of Changes in Net Pension Liability (Asset), assumption changes relate to an annual update of the mortality table, as noted below:

Actuarial valuation method	Entry age normal
Asset valuation method	Fair value for Statement No. 67 and Statement No. 68 Fair value is based on quoted market prices
Amortization method	Level Dollar
Amortization period	For Statement No. 68 as of June 30, 2024: Investment gains or losses are amortized over 5 years Experience gains or losses are amortized over the average working lifetime of all participants which for the current period is 1 year Plan amendments are recognized immediately Changes in actuarial assumptions are amortized over the average working lifetime of all participants.
Inflation	2%, per annum, compounded annually
Salary increases	4%, per annum, compounded annually
Investment rate of return	5.5%, per annum, compounded annually
Discount rate	5.5%, per annum, compounded annually
Asset smoothing method	3-year weighted average of asset gains and losses, subject to a 20% corridor
Retirement age	Varying rates beginning with 5% at age 50 and 100% retirement at age 65 Normal retirement age of 55 with 10 years of service, but no later than 65, for public safety employees
Mortality	June 30, 2024: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2023 June 30, 2023: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2022 June 30, 2022: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2021 June 30, 2021: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2020 June 30, 2020: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2019 June 30, 2019: RP-2014 Generational Mortality Table for Males and Females with improvement Scale MP-2018 June 30, 2018: RP-2014 Generational Mortality Table for Males and Females with improvement Scale MP-2017 June 30, 2017: RP-2014 Generational Mortality Table for Males and Females with improvement Scale MP-2016 June 30, 2016: RP-2014 Generational Mortality Table for Males and Females with improvement Scale MP-2015 June 30, 2015: RP-2014 Generational Mortality Table for Males and Females with improvement Scale MP-2014

Notes to Schedule of Changes in the Net OPEB Liability (Asset) and Schedule of OPEB Contributions

Actuarially determined contribution rates for each year presented in the Schedule of OPEB Contributions are based on an actuarial valuation performed as of the first day of each year for which the contributions relate. Methods and assumptions used to determine the contribution rate for the June 30, 2024 actuarially determined contribution are below. For each year presented in the Schedule of Changes in Net OPEB Liability (Asset), assumption changes relate to an annual update of the mortality table, as noted below:

Actuarial valuation method	Entry age normal method
Discount rate	6% per annum
Health care cost trend rate	The following health care trends were used for the year presented: June 30, 2024: 7.00% graded down using the Getzen 2024 model June 30, 2023: 6.25% graded down using the Getzen 2023 model June 30, 2022: 6.00% graded down using the Getzen 2022 model June 30, 2021: 6.25% graded down using the Getzen 2021 model June 30, 2020: 7.25% graded down using the Getzen 2020 model June 30, 2019: 7.25% graded down using the Getzen 2019 model June 30, 2018: 7.50% graded down using the Getzen model June 30, 2017: 7.75% graded down using the Getzen model
Dental and vision rate	5%
Retirement rates	Varying rates beginning with 5% at age 50 and 100% retirement at age 65
Mortality	The 2024 actuarially determined contribution was based on the RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2023. Assumption changes in the Schedule of Changes in Net OPEB Liability (Asset) relate to a change in the mortality tables used for each year presented, as follows: June 30, 2024: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2023 June 30, 2023: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2022 June 30, 2022: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2021 June 30, 2021: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2020 June 30, 2020: RP-2014 Generational Mortality Table for Males and Females with Improvement Scale MP-2019 June 30, 2019: RP-2014 Generational Mortality Table for Males and Females with improvement Scale MP-2018 June 30, 2018: RP-2014 Generational Mortality Table for Males and Females with improvement Scale MP-2017 June 30, 2017: RP-2014 Generational Mortality Table for Males and Females with improvement Scale MP-2016

Note: Information in this schedule is presented for the year in which information is available. Information will be added each year until a full 10-year trend is presented.

This part of the Authority's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the Authority's financial performance and well-being have changed over time (schedules on pages 112, 115, and 116)

Revenue Capacity

These schedules contain information to help the reader assess the Authority's most significant revenue sources (schedules on pages 113, 114, 118, and 119)

Debt Capacity

These schedules present information to help the reader assess the affordability of the Authority's current levels of outstanding debt and its ability to issue additional debt in the future (schedules on pages 115 and 117)

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the Authority's financial activities take place (schedules on pages 120, 121, and 122)

Operating Information

These schedules contain service data to help the reader understand how the information in the Authority's financial report relates to the services it provides and the activities it performs (schedule on page 121)

**Metropolitan Nashville Airport Authority
Annual Disclosure Report**

This section contains the following subsection:

Annual Disclosure Report

INTRODUCTION

This Continuing Disclosure Section (this "Report") has been prepared, and is being filed, by the Metropolitan Nashville Airport Authority (the "Authority") in connection with its annual continuing disclosure obligations for the Fiscal Year ended June 30, 2024, as an "obligated person" (as defined in Rule 15c2-12 of the Securities Exchange Commission (the "Rule") promulgated under the Securities and Exchange Act of 1934, as amended), as set forth in the continuing disclosure undertakings relating to: (a) the Outstanding Senior Bonds (as defined herein) and (b) the Outstanding Subordinate Bonds (as defined herein). This Report reflects certain annual financial information and operating data of the Authority reported as of June 30, 2024, except where expressly indicated otherwise. Unless otherwise defined herein, capitalized terms used in this Report shall have the meanings set forth in: (a) Resolution No. 91-09 adopted by the Board of Commissioners of the Authority (the "Board") on August 15, 1991, as amended and supplemented from time to time (the "Senior Bond Resolution") (b) Resolution No. 2019-15 adopted by the Board on October 16, 2019 as amended and supplemented from time to time (the "Subordinate Bond Resolution") and (c) the final Official Statements relating to the Outstanding Senior Bonds and the Outstanding Subordinate Bonds, which are available on the Electronic Municipal Market Access ("EMMA[®]") website operated by the Municipal Securities Rulemaking Board, which can be accessed at <http://emma.msrb.org>, and using the Base CUSIP Number of 592190, as applicable. The Authority will file its Annual Comprehensive Financial Report for the Fiscal Year Ended June 30, 2024 (the "2024 ACFR," which includes this Report) as the "2024 Annual Filing" on EMMA[®], which can be accessed at <http://emma.msrb.org>.

Miscellaneous; Forward-Looking Statements

The 2024 ACFR is not, and nothing in it should be construed as, an offer, invitation or recommendation in respect of any of the Authority's debt or securities, or an offer, invitation or recommendation to sell, or a solicitation of an offer to buy the Authority's debt in any jurisdiction. The matters discussed in the 2024 Annual Filing and all other documents issued by the Authority are for informational purposes only, and holders of the Authority's debt, potential investors and/or other interested parties should not rely on such information as their sole source of information about matters related to the Authority's debt or in making an investment decision with respect to the Authority's existing debt or securities or any other debt or securities which may be offered by the Authority. Neither the 2024 ACFR nor anything in it shall form the basis of any contract or commitment. By the filing of the 2024 ACFR, the Authority makes no recommendations and is not giving any investment advice as to any of the Authority's debt or securities. In no event shall the Authority be liable for any use by any party of, for any decision made or action taken by any party in reliance upon, or for any inaccuracies or errors in, or omissions from, the information contained herein and such information may not be relied upon in evaluating the merits of holding, purchasing or selling any of the Authority's debt or securities. The information contained in the 2024 ACFR, including any forecast financial information, if any, should not be considered as advice or a recommendation to holders and potential investors in relation to holding, purchasing or selling any such securities. Before acting on any information contained herein holders and potential investors should consider the appropriateness of the information having regard to these matters, any relevant offering document and in particular, holders and potential purchasers should seek independent financial and/or legal advice.

Certain of the information in the 2024 ACFR has been compiled from sources believed to be reliable, certain of which has not been independently verified. No representation or warranty, express or implied, is provided in relation to the fairness, accuracy, correctness, completeness or reliability of the information, opinions or conclusions contained or expressed herein.

The 2024 ACFR may contain "forward-looking" statements that involve risks, uncertainties, and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results may differ materially from those expressed or implied by such forward looking statements. Accordingly, the Authority cautions holders and potential purchasers not to place undue reliance on these statements. All statements other than the statements of historical fact could be deemed forward-looking and should not be considered a comprehensive representation of the Authority's expected operational or financial performance. All opinions, estimates, projections, forecasts, and valuations are preliminary, indicative and are subject to change without notice.

**Metropolitan Nashville Airport Authority
Annual Disclosure Report**

The information in the 2024 ACFR is current as of the dates set forth herein, as applicable, and there may be events that have occurred or will occur subsequent to such dates that would have a material adverse effect on the operational or financial information that is presented herein and in the 2024 ACFR. The Authority has not undertaken any obligation to update any information in the 2024 Annual Filing. Any financial data and other information provided in the 2024 ACFR are not warranted as to completeness or accuracy and are subject to change without notice.

SENIOR BONDS

Outstanding Senior Bonds

The following is the annual financial information and operating data required under the Authority's continuing disclosure undertakings with respect to the following Senior Bonds outstanding under the Senior Bond Resolution as of the date of this Report (the "Outstanding Senior Bonds"):

- (a) \$19,585,000 Metropolitan Nashville Airport Authority Airport Improvement Revenue Bonds, Series 2003B (Taxable) (the "Series 2003B Bonds");
- (b) \$91,855,000 Metropolitan Nashville Airport Authority Airport Improvement Revenue Bonds, Series 2015A (Non-AMT) (the "Series 2015A Bonds"); and
- (c) \$108,145,000 Metropolitan Nashville Airport Authority Airport Improvement Revenue Bonds, Series 2015B (AMT) (the "Series 2015B Bonds," and together with the Series 2015A Bonds, the "Series 2015 Bonds").
- (d) \$94,525,000 Metropolitan Nashville Airport Authority Airport Improvement Revenue Bonds, Series 2022A (Non-AMT) (the "Series 2022A Bonds"); and
- (e) \$501,560,000 Metropolitan Nashville Airport Authority Airport Improvement Revenue Bonds, Series 2022B (AMT) (the "Series 2022B Bonds," and together with the Series 2022A Bonds, the "Series 2022 Bonds").

Enplaned Passenger Traffic

Annual Enplanement Activity. In connection with the Authority's continuing disclosure undertaking relating to the Series 2015 Bonds (the "2015 Bonds Undertaking"), the following table presents the annual enplanements at the Airport by Signatory Airlines, Non-Signatory Airlines, and all Airlines for the past ten Fiscal Years.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

- (1) Certain airlines, including Air Wisconsin, Mesa Airlines, Republic, and Various/Trans State Airlines are affiliates of various airlines and their flights are included with the flights for the main carrier.
- (2) Numbers may not add up due to rounding.
- (3) Includes flights for American Airlines affiliates, including American Eagle.
- (4) Includes flights for United Airlines, including Continental Express (doing business as ExpressJet and United/Skywest).
- (5) Includes flights for Air Canada affiliates, including Air Georgian (doing business as Air Canada) and Air Canada (doing business as Jazz Air).
- (6) Includes flights for Westjet affiliates, including Westjet/Encore.
- (7) Includes charters.
- (8) As a result of the COVID-19 pandemic, international travel was not permitted for parts of Fiscal Years 2020 and 2021.
- (9) As a result of the COVID-19 pandemic, the disruption in aviation and passenger traffic had a significant effect on average daily scheduled arrivals and departures at the Airport in Fiscal Years 2020 and 2021. However, the impact of COVID-19 was not realized until the last four months of Fiscal Year 2020 and during Fiscal Year 2021, so the average daily scheduled arrivals and departures at the Airport by Signatory and Non-Signatory Airlines based on a typical business day during June 2020 and 2021 does not accurately reflect the average daily scheduled arrivals and departures for Fiscal Years 2020 and 2021 as a whole.

Source: The Metropolitan Nashville Airport Authority.

Note: In the table entitled "Average Daily Scheduled Arrivals and Departures," the categorical descriptions of "Signatory Airlines" and "Non-Signatory Airlines" were entitled "Major Airlines" and "Regional Airlines," respectively, in the final official statement relating to the Series 2003B Bonds.

Metropolitan Nashville Airport Authority Annual Disclosure Report

Daily Departures. In connection with the 2015 Bonds Undertaking, the following table presents daily departures at the Airport based on a typical business day during June of each Fiscal Year and the number of departures scheduled for that particular day for the past six Fiscal Years.

Nashville International Airport Daily Departures⁽¹⁾ Fiscal Years 2019 – 2024

<u>Year</u>	<u>Daily Departures</u>
2019	267
2020	120
2021	242
2022	265
2023	286
2024	312

⁽¹⁾ As a result of the COVID-19 pandemic, the disruption in aviation activity and passenger traffic had a significant effect on daily departures at the Airport during June of Fiscal Year 2020.

Schedule of Revenues, Expenses and Changes in Net Position

In connection with the 2003B Bonds Undertaking, the 2015 Bonds Undertaking, and the 2022 Bond Undertaking, the following table presents the Authority's schedule of revenues, expenditures, and change in net position for Fiscal Years 2020 through 2024 and reflects financial information for the Airport, the John C. Tune Airport (the "Reliever Airport")¹, and the MNAA Properties Corporation ("MPC"). MPC revenues and expenses are not included in the definition of Airport Revenues or the definition of Operating Expenses, respectively, except that ground rent payments and management fees by MPC and its subsidiaries to the Authority are included in Airport Revenues. As such, the following table should be read together with the Authority's financial statements, which presents the condensed financial information for the Airport, the Reliever Airport, and its blended component unit, MPC. Such information is presented in accordance with GASB Statement No. 61, The Financial Reporting Entity: Omnibus, An Amendment of GASB Statements No. 14 and 34. There are no separately issued financial statements for the Airport, the Reliever Airport, and MPC. See the 2024 Audited Financial Statements.

¹ On March 3, 2020, a tornado touched down in the Nashville area and continued its path across Middle Tennessee. The Reliever Airport, John C. Tune ("JWN"), incurred significant damage from the storm, including infrastructure damage to the terminal and other buildings (hangars), airfield, pavement, navigational aids, signage, lighting, fencing, utilities and more. JWN reopened on March 20, 2020. Fortunately, JWN was still able to complete construction on a new aircraft hangar with an attached office and shop space and related aircraft asphalt taxiway, asphalt apron, and vehicle parking, during Fiscal Year 2020. In July 2021, JWN kicked off a redevelopment plan which added new aviation facilities and replaced buildings destroyed in the tornado. The project includes expanding ramp areas, adding a new airport access point, constructing 12 T-hangar buildings with 78 hangar bays, four box hangar buildings with 12 hangar bays and two shade port buildings with 10 bays. Construction was complete during Fiscal Year 2022.

Airlines Serving the Airport

In connection with the 2022 Bonds Undertaking, the following table presents the Airlines serving the Airport as of June 30, 2024:

Passenger Airlines			Cargo Carriers	
Signatory	Regional Affiliates ⁽¹⁾	Non-signatory ⁽⁷⁾	Signatory	Non-signatory
Alaska Airlines	Commutair ⁽³⁾	Air Canada / Jazz Aviation ⁽⁶⁾	Federal Express	Air Transport Int'l.
Allegiant Air	Endeavor Air ⁽²⁾	Air Canada Rouge ⁽⁶⁾		Airborne Express
American Airlines	Envoy ⁽⁴⁾	Air Georgian		Amazon Prime
Delta Air Lines	GoJet Airlines ⁽³⁾	Avelo Airlines		Atlas Air
Frontier Airlines	Mesa Airlines ⁽³⁾	Breeze Airways		DHL
JetBlue	Republic Airways ⁽⁵⁾	British Airways ⁽⁶⁾		Kalitta Air
Southwest Airlines	SkyWest Airlines ⁽⁵⁾	Contour Airlines		Mountain Air Cargo
Spirit Airlines		Flair Airlines		Silkway West
United Airlines		Sun Country		Southern Air
		Swift Air		
		VivaAerobus ⁽⁶⁾		
		WestJet		
		WestJet Encore		

- (1) Subject to the provisions of the Signatory Airline Agreements, certain Signatory Airlines have designated one or more regional airlines as an Affiliate (as defined in the Signatory Airline Agreements). As such, the Landing Fees, Terminal Rents (both as defined in the Signatory Airline Agreements) and other charges due on account of each Affiliate's use of Airport facilities or services are calculated as if the Affiliate were a Signatory Airline.
- (2) Doing business as Delta Air Lines.
- (3) Doing business as United Airlines.
- (4) Doing business as American Airlines.
- (5) Doing business as American Airlines, Delta Air Lines and United Airlines.
- (6) Foreign flag carrier.
- (7) As a result of the COVID-19 pandemic, international travel was not permitted for parts of Fiscal Years 2020, 2021 and 2022.

**Metropolitan Nashville Airport Authority
Compliance Section**

This section contains the following subsections:

Single Audit Under Uniform Guidance

Passenger Facility Charges

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To Management and the Board of Commissioners
Metropolitan Nashville Airport Authority

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the aggregate remaining funds of the Metropolitan Nashville Airport Authority (the "Authority") as of and for the year ended June 30, 2024 and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated October 11, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

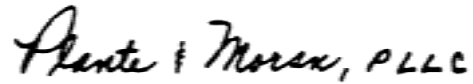

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To Management and the Board of Commissioners
Metropolitan Nashville Airport Authority

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Authority's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Plante & Moran, PLLC". The signature is written in a cursive, flowing style.

October 11, 2024

Report on Compliance for the Major Federal Program and Passenger Facility Charge Program and on Internal Control Over Compliance Required by the Uniform Guidance and the *Passenger Facility Charge Audit Guide for Public Agencies*

Independent Auditor's Report

To the Board of Commissioners
Metropolitan Nashville Airport Authority

Report on Compliance for the Major Federal Program and Passenger Facility Charge Program

Opinion on the Major Federal Program and the Passenger Facility Charge Program

We have audited the Metropolitan Nashville Airport Authority's (the "Authority") compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on the Authority's major federal program for the year ended June 30, 2024. In addition, we have audited compliance with the applicable requirements described in the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration, and the requirements in 14 CFR 158.63 (collectively, the "Guide") for the year ended June 30, 2024. The Authority's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. The Authority's passenger facility charge program is identified in the schedule of collections and expenditures of passenger facility charges.

In our opinion, the Authority complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on the major federal program and the passenger facility charge program for the year ended June 30, 2024.

Basis for Opinion on the Major Federal Program and the Passenger Facility Charge Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"); the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration; and the requirements in 14 CFR 158.63. Our responsibilities under those standards, the Uniform Guidance, and the Guide are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the Authority and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program and the passenger facility charge program. Our audit does not provide a legal determination of the Authority's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Authority's federal program and the passenger facility charge program.

To the Board of Commissioners
Metropolitan Nashville Airport Authority

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Authority's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Authority's compliance with the requirements of the major federal program and the passenger facility charge program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Authority's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Authority's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and the Guide, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or the passenger facility charge program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or the passenger facility charge program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or the passenger facility charge program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

To the Board of Commissioners
Metropolitan Nashville Airport Authority

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the Guide. Accordingly, this report is not suitable for any other purpose.

Metropolitan Nashville Airport Authority
Notes to Schedule of Expenditures of Federal and State Awards
For the Year Ended June 30, 2024

1. Basis of Presentation

The accompanying schedule of expenditures of federal and state awards (“SEFA”) includes the federal and state grant activity of the Metropolitan Nashville Airport Authority. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the Comptroller of the Treasury of the State of Tennessee. Because the Schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Authority.

2. Summary of Significant Accounting Policies

Expenditures reported on the schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or re limited as to reimbursement. The Authority has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

3. Contingency

The grant revenue amounts received are subject to audit and adjustment. If any expenditures are disallowed by the grantor agencies as a result of such an audit, any claim for reimbursement to the grantor agencies will become a liability of the Authority. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

**Metropolitan Nashville Airport Authority
Notes to Schedule of Expenditures of Federal and State Awards
For the Year Ended June 30, 2024**

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued: Unmodified

Internal control over financial reporting:

- Material weakness(es) identified? Yes No
- Significant deficiency(ies) identified that are not considered to be material weaknesses? Yes None reported

Noncompliance material to financial statements noted? Yes None reported

Federal Awards

Internal control over major programs:

- Material weakness(es) identified? Yes No
- Significant deficiency(ies) identified that are not considered to be material weaknesses? Yes None reported

Type of auditor's report issued on compliance for major programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with Section 2 CFR 200.516(a)? Yes No

Identification of major programs:

Assistance Listing Number	Name of Federal Program or Cluster
20.106	Airport Improvement Program

Dollar threshold used to distinguish between type A and type B programs: \$1,530,254

Auditee qualified as low-risk auditee? Yes No

Passenger Facility Charge Program

Internal control over major programs:

- Material weakness(es) identified? Yes No
- Significant deficiency(ies) identified that are not considered to be material weaknesses? Yes None reported

Type of auditor's report issued on compliance for major programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with AU-C 935? Yes No

Metropolitan Nashville Airport Authority
Notes to Schedules of Collections and Expenditures of Passenger Facility Charges
For the Year Ended June 30, 2024

1. General

The Schedules of Collections and Expenditures of Passenger Facility Charges presents the activity of the Passenger Facility Charge (PFC) program of the Metropolitan Nashville Airport Authority (the "Authority"), a component unit of the Metropolitan Government of Nashville and Davidson County, Tennessee. The information in the schedules is presented under the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration ("FAA"), and the requirements in 14 CFR 158.63.

PFCs are fees imposed on enplaning passengers by airports to finance eligible airport-related projects that preserve or enhance safety, capacity, or security of the national air transportation system, reduce noise from an airport that is part of such system, or furnish opportunities for enhanced competition between or among air carriers. Both the fee and intended projects must be reviewed and approved by the FAA.

2. Basis of Accounting

The accompanying Schedules of Collections and Expenditures of Passenger Facility Charges are presented using the cash basis of accounting.

3. Contingency

The Authority's PFC program is subject to review by the FAA. If any expenditures are disallowed as a result of such review, the Authority would be required to reimburse the PFC program. In the opinion of management, all PFC expenditures have been made in compliance with the rules and regulations of the PFC program.
